Isuzu resurrected the beloved Amigo in 1998, before changing the name of the 2-door convertible to Rodeo Sport in 2001 in an attempt to associate it with the better selling 4-door Rodeo. The new Axiom launched in 2001, with the fictional salesman Joe Isuzu from 1980s advertising campaigns brought back to promote it.

Volume One traces the history of Opel and Vauxhall separately from inception through to the 1970s and thereafter collectively to 2015. Special attention is devoted to examining innovative engineering features and the role Opel has taken of providing global platforms for GM. Each model is examined individually and supplemented by exhaustive supporting specification tables. The fascinating history of Saab and Lotus begins with their humble beginnings and examines each model in detail and looks at why these unusual marques came under the GM Banner. Included is a penetrating review of Saab through to its unfortunate demise. Volume Two examines unique models and variations of Chevrolet and Buick manufactured in the Southern Hemisphere and Asia but never offered in North America. Daewoo, Wuling and Baojun are other Asian brands covered in detail. This volume concludes with recording the remarkable early success of Holden and its continued independence through to today. Volume Three covers the smaller assembly operations around the world and the evolution of GM's export operations. A brief history of Isuzu, Subaru and Suzuki looks at the three minority interests GM held in Asia. The GM North American model specifications are the most comprehensive to be found in a single book. Global and regional sales statistics are included. GM executives and management from around the globe are listed with the roles they held. An index ensures that these volumes serve as the ideal reference source on GM.

China has used industrial policies to try to build large corporations that can challenge those based in more advanced countries. By the late 1990s the operational mechanism of China's large firms had seen large advances. Simultaneously, a revolution has taken place in global business systems, and China's large firms are even further behind the global leaders than when they began their reforms. The WTO will require China to operate rapidly on the 'global playing field' in competition with the world's leading corporations, and this increased gap presents a deep challenge for China's business and political leaders. Peter Nolan presents here the first in-depth case studies of China's large corporations under economic reform, combined with systematic benchmarking of these firms against the world's leading corporations. The book is an unrivalled resource of information on Chinese businesses, and also leads the reader to consider the impact of China's response to its current challenges not only on China itself, but on the wider global economy.

Includes advertising matter.

An annual publication that profiles important marketing campaigns of the 20th century.

This volume, a sequel to Form Miming Meaning (1999), offers a selection of papers given at the second international symposium on iconicity (Amsterdam 1999). In the light of semiotic, linguistic and literary theory the studies gathered here investigate how iconicity works on all levels of language, in literary texts and other forms of verbal discourse. They investigate, among other subjects, the semiotic foundations of iconicity, the role played by iconicity in language evolution and in the way words are positioned syntactically. Special consideration is given to the iconic nature of metaphor and the 'mise en abyme', to iconically motivated punctuation and other typographic matters such as the manipulation of colour, fonts and spacing in advertising and in poetry. Other studies show how iconicity influences Shakespeare's rhetoric, the structural design of Margaret Atwood's writings and the changing fashions in fictional landscape description. Thus, these analyses of 'the motivated sign' represent yet another strong challenge to [!Saussure's dogma of arbitrariness!](#) (Jakobson).
