An easy to follow guide to restoring a classic Mazda MX-5/Miata - the world's favourite small sports car. The comprehensive text is fully supported by high-resolution photographs, guiding you through stripping the car down, cutting out and repairing rust, restoration of interiors, replacing the hood, refurbishing the underside of the car including the floor pan, suspension, brakes, undersealing, reassembly, replacing the cam belt and waterpump, replacing engine seals and gaskets to cure common leaks. It also provides a guide to handy upgrades as you go along. The book is based on an actual restoration of a vehicle carried out by the author, with before and after shots.

Nothing will destroy, delay, or diminish a career like impatience. Yet millions of workers quit their jobs every month because they haven't gotten a promotion. It's natural to want to make the most out of one's career--after all, we spend more time working than any other activity in our busy lives. But the stark reality is that job-hopping in search of advancement and fulfillment may actually have the opposite effect. So what's the best way to "get promoted?" According to Rick Whitted, it's about outgrowing your space--making your current job bigger and bigger until management gives you a larger role and increased responsibilities. With a lifetime of experience and research to back him up, Whitted shows readers how to address those things inside of us that prevent career progression--things like self-entitlement, the desire to skip steps, and pride--and instead pursue excellence right where we are. Readers will be challenged to identify why they want a promotion, define for themselves what success really looks like, make lateral moves that position them for promotion later, be innovators in the role they perform right now, and much more. End-of-chapter discussion questions help readers immediately apply concepts to their own personal situation, and three practical 30-day checklists, also available at www.careerwhitt.com, help readers relaunch, redefine, or begin the process of outgrowing their current space.

This is the fascinating inside story of the design and build of what would become the world's favourite lightweight sports car. Candid text, written by the engineers and designers themselves, guides the reader through every stage of the vehicle's development, from original concept through to the production model that took the world by storm.

Creating a sensation when announced in 1989 the MX-5 was more than a simple re-creation, it was more of a re-interpretation bringing the earlier concept of a two-seater right up to date. Initially the only comparisons made were to older cars such as the MGB and it was some time before the likes of Honda, Fiat and BMW came along; now true comparisons could be made. These contemporary articles put the car into context and give a good balance of opinion. American, British and Australian experts compare the Miata and MX-5 R against: Toyota MR2; Lotus Elan and Elise; Mercury Capri XR2; Porsche Boxster, 911 and 944; Honda CRX and Civic Del Sol Si; Nissan NX2000 and 300ZS; MGF and MGB; Mazda RX-7; Mitsubishi 3000GT VR-4; Corvette; Alfa Romeo Spider; BMW Z3; Fiat Barchetta; Mustang Cobra, and others. Includes new model reports and updates, performance data and specs, plus advice on buying a used MX-5.
