The 5 Things You Need to Know about Statistics provides an accessible introduction to statistical thinking for anthropologists and other social scientists who feel some mixture of dread and loathing when it comes to quantification and data analysis. It is not so much an introduction to statistics as a primer on how to think statistically in order to do precise ethnographic studies. Readers will be empowered by the realization that statistics is not an arcane, enigmatical science but a set of tools for learning about the world in which we live. Unlike other books on statistics for beginners, this book-guides readers through the underlying logic of the major statistical methods before applying those methods in interpreting ethnographic research, thus emphasizing understanding of quantitative methods;-uses a single data set in explaining each method, allowing readers to grasp how different methods offer varying interpretations of the data;-discusses increasingly complex techniques in plain, easy-to-understand language intended for beginning students;-covers five central ideas: central tendency, dispersion, Chi-square, ANOVA, correlation;-shows readers how to use these quantitative statistical methods in doing real-life ethnographic fieldwork.

Real Help for the Toughest Talks Most parents dread talking about sex with their children. Anne Marie Miller loves giving "the talk." As she has shared her personal story and talked about God's gift of sex with almost half a million young people, she's noticed some disturbing patterns: - Google is how kids learn about sex - Kids are learning about sex and viewing pornography earlier than parents think - The sexually abused often don't tell anyone for fear of getting in trouble - Sexual messages are being consumed daily through mainstream and social media - Most parents think their child is the exception Instead of sweeping this topic under the rug, Miller wants to change the narrative. In this immensely practical and well-researched book, she equips parents to have meaningful and age-appropriate conversations with their children about sex, pornography, and sexual abuse. She advises parents on how to keep the lines of communication open so that their children know they can trust them with their fears, struggles, and mistakes. Most important, she offers hope to worried parents that their children can grow up with a healthy biblical view of sex as a gift from God.
