stand alone product  
that works well with  
any 1-semester  
human anatomy text.

## Bestmanore

The Bohensky  
Dissection Series has  
been used  
successfully by more  
than 300,000 biology  
students nationwide.  
Each book in the  
series is designed to  
guide the student

# Read Online Anatomy Lab

through the study of anatomical structures. The books do this through the use of clearly marked photographs and illustrations.

Accompanying text offers the student both easy-to-follow dissection instructions and factual information about the section under

# Read Online Anatomy Lab

observation. At the end of each chapter there are tests which can be used for self-study or for grade course evaluation.

Within the traditional dissection portion of a biology course, many programs include the sheep heart, eye, and brain. Within many of these guides, the author has

# Read Online Anatomy Lab

incorporated  
photographs of these  
structures to more  
closely follow  
standard course  
curriculum. The  
author also provides  
important information  
on human organs  
such as the eye, ear,  
and heart. In this way,  
the student can better  
understand the role  
and function of these

# Read Online Anatomy Lab

organs as they relate to human life processes. Add to this each book's large-size format, lay-flat spiral binding, and reasonable cost, and you can see why the Bohensky Dissection Series has become one of the most successful dissection guides used throughout this

Purpose of study :  
The need for  
enrichment programs  
that exposes a  
diverse population of  
youth to health  
careers, is key to  
meeting national  
goals in helping  
eliminate health  
disparities. In this  
report, we describe

# Read Online Anatomy Lab

the effectiveness of a unique and highly interactive enrichment program in garnering the interest of a diverse population of middle school students towards a career in the health field. Methods : To give youth a glimpse of life in medical school, we designed a structured program

# Read Online Anatomy Lab

during the academic calendar that mimics the medical school's interactive curriculum.

The workshops included but were not limited to lab practical's on human brain anatomy and sheep heart dissection, nutrition lectures, clinical skills sessions, bedside ultrasound, and

# Read Online Anatomy Lab

robotics. The students were accepted through an application process. Students were sought out by their teachers and by interest in the medical field. We encouraged participation of those underrepresented in medicine by collaborating with schools in underserved areas. A

# Read Online Anatomy Lab

feedback survey was distributed at the end of the program to measure the effectiveness of the program in helping them with their future goals and professional development as well as the effectiveness of the workshops. A 5-point scale was used, 1=least

# Read Online Anatomy Lab

effective or 5 most effective. Summary of results : During the 2014-2015 academic year, 95 middle school students participated in the program and 57% were underrepresented in medicine. Of 95, 85 (89%) completed evaluations were collected. The

# Read Online Anatomy Lab

average rating of the workshops ranged from 3.3 to 5.0, with anatomy lab and the medical school tour each having the highest rating of 4.7. As a result of this program, students gave an average rating of 4.4 out of 5 regarding their motivation to pursue a career in medicine,

# Read Online Anatomy Lab

and a rating of 4.35 for interest in serving the underserved.

Conclusions : The Hippocrates Circle of Kaiser San Diego was very successful in promoting the interest of a diverse population of youth towards a career in medicine. Long-term follow-up of the participants' career
