## AQA GCSE Past Papers | All Subject Mark Scheme Papers

International GCSE Geography. Students will travel the world from their classroom, exploring the interactions between the man-made and natural worlds, including climate change. We've given equal weighting to physical and human geography, so students can investigate the links between the two themes. The fundamental theories, concepts and processes of geography are covered at global, regional and local scales, with the opportunity for teachers to use relevant local examples.

Suitable for both Foundation and Higher students, this textbook follows the structure and content of AQA B from September 2001. It integrates key skills and ICT as well as geographical skills. Summary sections at the end of each chapter focus students on revision and exam practice.

In Exam Literacy: A guide to doing what works (and not what doesn't) to better prepare students for exams, Jake Hunton focuses on the latest cognitive research into revision techniques and delivers proven strategies which actually work. Foreword by Professor John Dunlosky. 'Read, highlight, reread, repeat if such a

revision cycle sounds all too wearily familiar, you and your students need a better route to exam success. And in light of the recent decision to make all subjects at GCSE linear, so that students will be tested in one-off sittings, it will be even more important that students are well equipped to acquire and recall key content ahead of their exams. In this wide-ranging guide to effective exam preparation, Jake Hunton casts a careful eye over a wide range of research into revision techniques and details the strategies which have been proven to deliver the best results. With plenty of practical suggestions and subject-specific examples, Exam Literacy provides teachers with user-friendly advice on how they can make the content they cover stick, and shares up-to-date, evidence-based information on: The nature of learning and the various types of memory. How to improve students' retention of knowledge and recall of content. Why popular revision techniques, such as rereading, highlighting and summarising, may not be as effective as you think. How revision strategies that have been identified as being more effective such as interleaving, elaborative interrogation, self-explanation and retrieval practice can be embedded into day-to-day teaching. How students can be encouraged to make use of these winning strategies when revising independently.

The latest teaching standards demand that all teachers 'take responsibility for promoting high standards of literacy and correct use of standard English, whatever the teacher's specialism'. That's no bad thing, but it leaves some of us feeling under-trained and over-exposed. Enter the Literacy Across the Curriculum Pocketbook. The book is based on four principles: literacy is important for all learning; we owe it to our pupils to help them develop their literacy; developing strategies for LAC enhances teaching and learning across the school; teachers do not have to be literacy experts to promote LAC. In a series of punchy chapters, (Speaking for Success, Write Better! Vamp up your Vocabulary, Splendid Spelling, Raring to Read) Caroline Bentley-Davies presents practical ideas and simple strategies for incorporating literacy skills into your own lessons. All this plus some really helpful advice on note-making and a self-audit LAC checklist. "Literacy Across the Curriculum Pocketbook is a necessity for all teachers wanting to find manageable, effective and exciting ways of promoting literacy in their lessons. A great resource!" Justin Wakefield, Literacy & Numeracy Co-ordinator, Humberston Academy, Grimsby "Innovating tips, strategies and ideas to revitalise literacy in your lessons instantly. Every page offers simple and realistic approaches to promoting literacy across all subjects. Vamp up your vocab; make tricky spelling stick; weave literacy seamlessly into your lessons. I love it!" Lesley Ann McDermott, History Teacher, St Patrick's Catholic College, Thornaby-on-Tees
