Today, technology is used to shift, sway and change attitudes and behavior. This creates amazing opportunities and challenges for designers. If we want to create products and services that have the power to educate people so they may live better lives, or help to reduce the time people take to do certain tasks, we first need an understanding of how these people think and work - what makes them "tick" The premise of this book is the need to understand how people "behave"; their habits, motivators and drivers, as a critical way to better understand what a great customer experience for your audience looks like, facilitating better design decisions. The book will lead you from understanding behavior, to extracting customer insights that can launch you into the design of something that makes a difference to people's lives - all presented in a fun, practical and non-academic way.

Taryn Clark thought she'd outgrown the need to find her birth mother. She thought that a successful career and a comfortable life in the city were enough to be happy. Did she really need to know about the woman who had given her away? Adopted at birth, her first few years were happy. It hadn't mattered that she didn't know her heritage; she had parents who loved her and wanted her. But divorce, and then death, ripped their tiny family apart, and at the tender age of six, she entered the foster care system. Over the next dozen years, she shuffled from home to home. Finding her roots seemed an impossible dream. But dreams are resilient. An unexpected discovery awakens old yearnings of belonging to a family, of being part of something bigger than herself. Finding the brief, ambiguous note from her birth mother is enough to unfurl the ribbons of hope still binding her heart. Her quest takes her to Lancaster County, Pennsylvania and the heart of the Plain community. Aided by her unique eye color, a healthy dose of luck, and the private investigator she hires, Taryn finds her birth family easily enough, but finding the truth is another matter. In all her musings, she never imagined a scenario where her mother might be Amish. She never imagined that the fabric of her life might be a patchwork of faith and fear, stitched together with a dark family secret. Taryn is determined to trace her roots, even if it means digging in the mud to do so. Now she's caught in the quicksand of a shocking discovery and the consequences of choices made, almost forty years ago. She'll risk everything to uncover the truth and to claim the family--and the roots--she so desperately craves.

Kix and Emilia adopt a stray dog and name him Sam, even though their parents say they cannot keep him, but then Sam's original owner comes looking for him.

FUNNY. OUTRAGEOUS. TRUE. Have you ever wondered why some of the biggest problems we face, from illegal immigration to global warming to poverty, never seem to get fixed? The reason is simple: the solutions just aren't very convenient. Fortunately, radio and television host Glenn Beck doesn't care much about convenience; he cares about common sense. Take the issue of poverty, for example. Over the last forty years, America's ten poorest cities all had one simple thing in common, but self-serving politicians will never tell you what that is (or explain how easy it would be to change): Glenn Beck will (see chapter 20). Global warming is another issue that's ripe with lies and distortion. How many times have you heard that carbon dioxide is responsible for huge natural disasters that have killed millions of people? The truth is, it's actually the other way around: as CO₂ has increased, deaths from extreme weather have decreased. Bet you'll never see that in an Al Gore slide show. An Inconvenient Book contains hundreds of these same "why have I never heard that before?" types of facts that will leave you wondering how political correctness, special interests, and outright stupidity have gotten us so far away from the commonsense solutions this country was built on. As the host of a nationally syndicated radio show, The Glenn Beck Program, and a prime-time television show on CNN Headline News, Glenn Beck combines a refreshing level of honesty with a biting sense of humor and a lot of research to find solutions that will open your eyes while entertaining you along the way.

Until now, no study has been made of the construction techniques of the Nabataean freestanding buildings and the rock-cut monuments of Petra, Jordan (built from the 1st cent. BC to the 2nd cent. AD). This study of Brecht's theatre from eight different aspects was first published in 1959. The book aims to explain the difficult aspects of his ideology and political leanings in a straightforward manner. It traces his

stylistic development as a playwright and stage director through each of his major plays and explains his evolving notion of epic theatre within the political and social climate of the 1920s, Marxism, Nazism and post-war Communism.
