- A glossary of assistive technology terms •

Extensive resources for  
each disability category

Assistive Technology  
(AT) is the term used to  
describe products or  
technology-based  
services which support  
those with disabilities or  
other limitations to their  
daily activities, enabling

# Get Free Braillenote

them to enjoy a better quality of life. This book presents the proceedings of the 13th European Conference on the Advancement of Assistive Technology (AAATE 2015), held in Budapest, Hungary in September 2015. This biennial conference has established itself as a leading forum in the transdisciplinary area of

# Get Free Braillenote

Assistive Technology,  
providing a unique  
platform for the  
gathering of experts  
from around the world  
to review progress and  
challenges in the  
interdisciplinary fields  
which contribute to AT,  
such as research,  
development,  
manufacturing, supply,  
provision and policy.  
The theme of the 2015

# Get Free Brailnote

conference is 'Attracting new areas and building bridges', and this book contains 138 reviewed papers and 28 poster presentations delivered at the conference, covering AT themes as diverse as aging, blindness, mobility, assisted living and accessibility for people with dementia and cognitive impairment.

# Get Free Brailnote

Offering a current overview of many aspects of AT, this book will be of interest to all those – from researchers and manufacturers to healthcare professionals and end-users – whose work or daily life involves the relationship between technology and disability.
