Market_Desc: Manufacture Managers and Executives. About The Book: The thrust of this edition is more quantitative in approach and more comprehensive in its discussion of strategic issues. It provides

Read Free Buffa Sarin Industrial

treatments of multi-criteria decision methods, quality control, and operations strategy not found in other texts. Divided into four sections, the first convincingly demonstrates that the operations function is of paramount importance in the success of a firm. The second section presents quantitative models, and the third and final

Read Free Buffa Sarin Industrial

sections discuss the design of operations systems, advanced technologies, strategy, formulation and implementation.

In the fall of 1992 a conference honoring Elwood S. Buffa was held at the Anderson Graduate School of Management of the University of California, Los Angeles.

Read Free Buffa Sarin Industrial

This book is a collection of the work presented at that conference. The scholars who gathered to honor El are the prominent researchers in the field of Operations Management. Their collective work published in this book represents the richness of the field and provides the reader with valuable insights into its

Read Free Buffa Sarin Industrial

important issues and problems. While any grouping of the articles by these distinguished scholars will be arbitrary, I have organized the book in four sections. In the first section the articles dealing with the strategic issues in Operations Management are compiled. The articles deal with continuous improvement,

Read Free Buffa Sarin Industrial

quality, services, supply chain management, and creating value through operations. The articles that explore the interface of Operations Management with other functional areas, e.g. engineering and marketing, are grouped in the second section. The third section of the book contains articles that attempt to model

Read Free Buffa Sarin Industrial

some important planning problems that arise in the management of production and operations. Some of the papers in this section provide state of the art reviews of selected topic areas. Finally, the fourth section contains articles that deal with future directions for Operations Management. The authors offer several

Read Free Buffa Sarin Industrial

insights into the future evolution of the field. The book begins with the keynote address given by El Buffa at the start of the conference on November 2, 1991.

This new compendium of recent advances in the use of modern technology and management concepts-- from distributed

Read Free Buffa Sarin Industrial

virtual manufacturing enterprises to integrating green technology in a cost-effective manner to materials and energy savings will offer engineers and technical managers the needed insight to plan for future growth and success. Greater utilization and availability of resources in the workplace are directly related to better

Read Free Buffa Sarin Industrial

design and better engineering in the manufacturing economy. The book will explore how energy-efficient smart materials and structures hold tremendous potential for realizing cost savings and improving energy use in the modern industrial workplace. It will also show how industrial engineers have developed a

Read Free Buffa Sarin Industrial

variety of analytical and computer-based tools and technologies for planning, forecasting and scheduling resources including time, labor, and more recently, energy. Readers will also find: -- New trends in "i-Manufacturing" -- Finding optimal ways to distribute goods and services -- Human Resources Management

Production planning in fresh food industries is a challenging task. Although modern Advanced Planning and Scheduling (APS) systems could provide significant support, APS implementation numbers in these industries remain low. Therefore, based on an in-depth analysis of three sample fresh food industries

Read Free Buffa Sarin Industrial

(dairy, fresh and processed meat), the author evaluates what APS systems should offer in order to effectively support production planning and how the leading systems currently handle the most distinguishing characteristic of fresh food industries, the short product shelf life. Starting from the identified weaknesses,

Read Free Buffa Sarin Industrial

customized software solutions for each of the sample industries are proposed that allow to optimize the production of fresh foods with respect to shelf life. The book thereby offers valuable insights not only to researchers but also to software providers of APS systems and professionals from fresh food industries.

Read Free Buffa Sarin Industrial

This textbook will be welcomed throughout engineering education as the one-stop teaching text for students of manufacturing. It takes the student through the fundamental principles and practices of modern manufacturing processes in a lively and informative fashion. Topics

Read Free Buffa Sarin Industrial

include casting, joining, cutting, metal deformation processes, surface treat

The subject for this book is my life work on the enterprise modeling and integration by a stochastic/queuing form, and the book plan was conceived before my stay in the USA in 1996–97 as a visiting

Read Free Buffa Sarin Industrial

scholar. The first title was “Stochastic Management and Design of Manufacturing Systems.” The first version was attempted in 2001; however, this version was inappropriate and was not revised till now. It is 40 years since I attempted a stochastic approach to manufacturing and management due to the

Read Free Buffa Sarin Industrial

limitations of statistical approaches. The century in which industrial engineering and management rose to the forefront was one in which a static/statistical approach was applied to the development of classical models and general/average theory. This book presents a stochastic management approach to the

Read Free Buffa Sarin Industrial

manufacturing and service enterprise with risks by a game/strategic view, and is based on many papers in production/queueing studies that have appeared in famous journals. The book's objective is to discuss and show the goals and constraints on manufacturing and service enterprises, and to provide a

Read Free Buffa Sarin Industrial

strategic/collaborative solution for management with risks in heterogeneity. This book mainly focuses on the three manufacturing classes: continuous, poi-wise, and exible stream types under risks. These manufacturing streams are rst studied using the respective stochastic processes, and are characterized and dev-
