Vincent Spinetti is an archetypal tortured artist, a sensitive young writer who falls victim to alienation, parental neglect, poverty, depression, alcoholism, illness, nervous breakdowns, and unrequited love. He is painfully unaware that these torments are due to the secret manipulations of New Renaissance, an experimental organization that is testing the age-old idea that art results from suffering.

Edited by the father of endourology, Arthur Smith, Smith's Textbook of Endourology is the definitive reference book in the field, addressing every aspect of endourologic procedure including methods of access, operative techniques, complications, and postoperative care. The principles and function of state-of-the-art endourologic instruments are outlined for each procedure.
