Campbell Biology Concepts and Connections 8th edition ...
65 percent of all doctors and biological scientists in the United States under the age of 40 began their study of biology with this book. For the Eighth Edition, new coauthors have joined with those from previous editions to infuse this proven text with new ideas while upholding its hallmark values. Their collaboration has produced the authoritative introduction to biology, told with a unified voice and vision.

Campbell & Reece, Biology | Pearson
The Cambell book on biology is recognized as pretty much the standard for intro to biology courses. I used the third edition of the Cambell book when I took biology as an undergrad for two of my first year courses and decided to pick up this 8th edition version for my daughter heading into high school since she expressed interest in the subject.
