David Littleford, John Halstead and Charles Mulraine have over 60 years experience of working with young people at the start of their careers. In this unique workbook, they offer the reader the opportunity to develop the tools and techniques they will need to identify their personal skill-sets and use them to sell themselves effectively at interview and beyond.

Appropriate for Study Skills, College Prep courses, Student Success, and any Freshman Seminar courses with an emphasis on study skills. Keys to Study Success focuses on study skills while placing them in the context of the challenges of everyday student life. In addition to strong chapters on reading, writing, note taking, and test taking, students learn to maximize their academic abilities through integrating learning styles and critical thinking into their work. This book has the same popular features found in the best-selling student success book, Keys to Success 2/E.

'This book provides an essential resource for educators of clinical skills who want to utilise simulation based education to provide optimal learning opportunities for their students.' Andrew Bland, University of Huddersfield 'In this book, a team of experienced authors have put together a much needed text that takes an evidence-based, practical approach to skills development.' Lauren Mawson, University of Cumbria 'A really exciting new text.' Sarah Burden, Leeds Metropolitan University Practice educators and mentors are now expected to have the skills and techniques needed to implement a 'learning skills through simulation' programme into established curricula, yet using simulation to teach - while of huge importance - requires careful and time-consuming planning. This valuable resource takes away some of that burden by providing clear, ready-made activities and guidance from leading practitioners in a range of fields, which healthcare and practice educators and mentors can use to enhance their teaching of all the essential and commonly-taught clinical and management skills and knowledge. Dedicated chapters, which all follow a defined step-by-step format, provide simulation scenarios, alongside facilitator guidance, which will help develop confidence in the teaching of key skills such as: - Drug administration - Conflict management - Infection control - Breaking bad news - Catheter and bowel care These scenarios and accompanying guidance can be used as a framework for teaching, promoting a greater understanding of the skill being taught, and providing a risk-free opportunity for the student to practice their clinical and managerial skills and judgement.

Looking for a ready-made way to integrate technology into your College Success or Career Development course? MyStudentSuccessLab (www.mystudentsuccesslab.com) is an interactive student learning environment where students have the opportunity to ASSESS, PRACTICE, and APPLY what they learn. This self-guided lab helps students discover their learning strengths and weaknesses and build the skills they need to succeed in college. Students can track their academic and personal growth throughout the course, develop self-awareness, practice study and self-management skills outside of class, and learn to set goals. Allows students to assess their needs, set their own pace to practice, and apply what they learn to reach their goals and succeed in college, career, and life. Suitable for use in face-to-face, hybrid, or online classes.

This report suggests that the role of skills and education and training policies should be an important component of the ecological transformation process.

Features numerous job profiles in the casino and gaming industry and includes appendixes covering professional organizations, schools, associations, unions, and casinos. Career profiles include blackjack dealer, casino host, concierge, and hotel publicist.
