In *Personal & Authentic*, Thomas C. Murray reveals the power of designing awe-inspiring experiences that are grounded in relationships and learner-centered by design. Inherently relevant and contextualized, it is this kind of learning that lasts a lifetime.

Named one of the most important nonfiction books of the 21st century by *Entertainment Weekly*, *Slate*, *Chronicle of Higher Education*, *Literary Hub*, *Book Riot*, and Zora A tenth-anniversary edition of the iconic bestseller—one of the most influential books of the past 20 years, according to the *Chronicle of Higher Education*—with a new preface by the author. It is in no small part thanks to Alexander's account that civil rights organizations such as Black Lives Matter have focused so much of their energy on the criminal justice system. Adam Shatz, *London Review of Books* Seldom does a book have the impact of Michelle Alexander's *The New Jim Crow*. Since it was first published in 2010, it has been cited in judicial decisions and has been adopted in campus-wide and community-wide reads; it helped inspire the creation of the Marshall Project and the new \$100 million Art for Justice Fund; it has been the winner of numerous prizes, including the prestigious NAACP Image Award; and it has spent nearly 250 weeks on the *New York Times* bestseller list. Most important of all, it has spawned a whole generation of criminal justice reform activists and organizations motivated by Michelle Alexander's unforgettable argument that "we have not ended racial caste in America; we have merely redesigned it." As the *Birmingham News* proclaimed, it is "undoubtedly the most important book published in this century about the U.S." Now, ten years after it was first published, *The New Press* is proud to issue a tenth-anniversary edition with a new preface by Michelle Alexander that discusses the impact the book has had and the state of the criminal justice reform movement today.

CISSP Study Guide, Third Edition provides readers with information on the CISSP certification, the most prestigious, globally-recognized, vendor-neutral exam for information security professionals. With over 100,000 professionals certified worldwide, and many more joining their ranks, this new third edition presents everything a reader needs to know on the newest version of the exam's Common Body of Knowledge. The eight domains are covered completely and as concisely as possible, allowing users to ace the exam. Each domain has its own chapter that includes a specially-designed pedagogy to help users pass the exam, including clearly-stated exam objectives, unique terms and definitions, exam warnings, "learning by example" modules, hands-on exercises, and chapter ending questions. Provides the most complete and effective study guide to prepare users for passing the CISSP exam, giving them exactly what they need to pass the test Authored by Eric Conrad who has prepared hundreds of professionals for passing the CISSP exam through SANS, a popular and well-known organization for information security professionals Covers all of the new information in the Common Body of Knowledge updated in January 2015, and also provides two exams, tiered end-of-chapter questions for a gradual learning curve, and a complete self-test appendix

"*Catalyzing Change in Elementary and Early Childhood Mathematics* presents four key recommendations to guide conversations that take a critical look at current mathematics programs in order to identify practices, policies, and instructional approaches that hinder any child from becoming confident and capable mathematics learners. The book uses classroom vignettes and student work to illustrate how the eight effective mathematics teaching practices form a framework for equitable instruction and to discuss the teaching of important mathematics topics in number and operations, early algebra, geometry, and data"--

Imagine a school with a diverse student body where everyone feels safe and valued, and all—regardless of race, culture, home language, sexual orientation, gender identity, academic history, and individual challenges—have the opportunity to succeed with interesting classes, projects, and activities. In this school, teachers notice and meet individual instructional needs and foster a harmonious and supportive environment. All students feel empowered to learn, to grow, and to pursue their dreams. This is the school every student needs and deserves. In *Building Equity*, Dominique Smith, Nancy Frey, Ian Pumpian, and Douglas Fisher, colleagues at San Diego's innovative Health Sciences High & Middle College, introduce the *Building Equity Taxonomy*, a new model to clarify the structural and interpersonal components

of an equitable and excellent schooling experience, and the Building Equity Review and Audit, survey-based tools to help school and teacher leaders uncover equity-related issues and organize their efforts to achieve □ Physical integration □ Social-emotional engagement □ Opportunity to learn □ Instructional excellence □ Engaged and inspired learners Built on the authors' own experiences and those of hundreds of educators throughout the United States, this book is filled with examples of policy initiatives and practices that support high-quality, inclusive learning experiences and deliver education that meets critical standards of equality and equity.
