The "in Context" books offer affordability, accessible presentation, and engaging coverage of current policy issues from economic inequality and global climate change to taxes. Key features include:

- Clear explanation of basic concepts and analytical tools, with advanced models presented in optional chapter appendices;
- Presentation of policy issues in historical, institutional, social, political, and ethical context--an approach that fosters critical evaluation of the standard microeconomic models, such as welfare analysis, labor markets, and market competition;
- A powerful graphical presentation of various measures of well-being in the United States, from income inequality and educational attainment to home prices;
- Broad definition of well-being using both traditional economic metrics and factors such as environmental quality, health,

Globalization has been contested in recent times. Among the critical perspectives is cosmopolitanism. Yet, with the exception of normative theory, international relations as a field has ignored cosmopolitan thinking. This book redresses this gap and develops a dialogue between cosmopolitanism and international relations. The dialogue is structured around three debates between non-universalist theories of international relations and contemporary cosmopolitan thought. The theories chosen are realism, (post-)Marxism and postmodernism. All three criticize liberalism in the international domain, and, therefore, cosmopolitanism as an offshoot of liberalism. In the light of each school's respective critique of universalism, the book suggests both the importance and difficulty of the cosmopolitan perspective

Supply Chain in the contemporary world. Beardsworth emphasizes the need for global leadership at nation-state level, re-embedding of the world economy, a cosmopolitan politics of the lesser violence, and cosmopolitan political judgement. He also suggests research agendas to situate further contemporary cosmopolitanism in international relations theory. This book will appeal to all students of political theory and international relations, especially those who are seeking more articulation of the main issues between cosmopolitanism and its critics in international relations.

It draws upon the author's successful book on the second edition of the Engineering and Construction Contract, ECC2, and it identifies and comments on the changes between ECC2 and NEC3. Particular attention is given to the revised compensation event procedures, as well as:

- \* the role of the project manager
- \* the liabilities and obligations of the parties
- \* the revised dispute resolution procedures
