With the additional contribution of Look Chan Ho, an expert in the field of corporate finance, this thoroughly revised and updated second edition of Ferran's 'Principles of Corporate Finance Law' explores the relationship between law and finance.

Corporate Finance: The Basics is a concise introduction to the inner workings of finance at the company level. It aims to take the fear out of corporate finance and add the fun in, presenting the subject in a way that is simple to grasp and easy to digest. Its aim is to explain – and demystify – the essential ideas of corporate finance, avoiding the heavy use of maths and formulae. The calculations and figures in the book are purely to illustrate fundamental

concepts, appealing to readers' common sense, rather than stretch their ability to do "number-crunching". Topics covered include: Financial statements through the corporate finance lens How to make investment decisions Cash versus profit Net working capital management How to determine the value of a business Through the use of a subject map, this book explains how the key components of the subject are connected with each other, strengthening the reader's understanding. This book is the ideal introduction for anyone looking for a short yet scholarly overview of corporate finance.

This—revised and enhanced—book examines the role of finance in supporting other functional areas while fostering an understanding of how financial decisions can create value. Corporate Finance covers areas related to estimating divisional cost of capital; executing a financing strategy; establishing debt and dividend policies consistent with the company's strategy and environment; choosing between dividends and stock repurchases; managing high growth and managing working capital. Its new topics include: - Corporate Financial Flexibility (Real options) - New Financial Instruments - Project Finance - Acquisitions and Control - Performance Measurement and Incentive Compensation The goal of this book is to provide a thorough understanding of how and why firms make their financial decisions the way they do and their impact on shareholder value. The central theme of the book is Value Based Management, which assumes that maximizing shareholder value is the governing objective of a firm. Each chapter of this new edition has detailed and real-life cases to help students easily understand and grasp concepts. The author has also provided the case-map of the Harvard Business School to make this book more user-friendly in classrooms. The inclusion of several new topics/cases, extensive pedagogical tools and a finance-for-non-finance approach make this book ideal for MBA/CA/CFA/ICWA students and executive education programs.

The Finance Book will help you think and manage like a financial strategist. Written specifically for non-finance professionals, it will give you all you need to know to manage your business more effectively and think more strategically. It will help you to: Have the confidence to read and interpret financial statements Ask the right questions about financial performance Apply important financial tools and ratios Learn how to think financially and make better strategic financial decisions Covering business finance, accounting fundamentals, budgeting, profitability and cash management, you'll find the tools you need in order to make the best financial decisions for your business. 'Essential reading for any non-finance professional. This is an easy to read and practical guide to the world of finance.' Paul Herman, Group CEO, Bluebox 'Corporate Finance' 'A really helpful, well organised and easy to understand primer and reference book for those who aren't accountants but still need to understand the accounts.' Roger Siddle, Chairman, Cordium Group 'A great book. At last, a guide that demystifies and encourages business owners to practically understand financial matters. A must read.' Gordon Vater CEO, RiiG Limited
