This book develops conceptual understanding of the fundamentals of financial accounting which play a crucial role in laying the foundation of commerce and accountancy courses in general and CPT in particular. Dexterously organized to suit the requirements of CPT aspirants, the text presents a step by step analysis of the basic concepts of accountancy in a comprehensive but in an easy-to-grasp manner. The text begins with discussing the meaning and scope of accounting and moves on by elaborating on different accounting standards, policies and the procedures followed in accounting. It also discusses ledger, trial balance, cash book and bills of exchange or promissory notes in the subsequent chapters. Apart from discussing the various types of accounts, such as partnership accounts and company accounts, this text explains debentures and inventories in a simple and lucid style. Specifically meant for the prospective examinees of the Common Proficiency Test (CPT), conducted by the Institute of Chartered Accountants of India (ICAI), this text should also prove valuable to undergraduate students of commerce and management. SALIENT FEATURES Provides bird’s eye view in each chapter for a quick understanding of the concept Includes keywords and summary at the end of each chapter Incorporates Multiple Choice Questions with their answers useful for CPT Provides model test papers, objective type questions and subject in nutshell in Appendices.

Is there something distinctive about penology in Europe? Do Europeans think about punishment and penal policy in a different way to people in other parts of the globe? If so, why is this the case and how does it work in practice? This book addresses some major and pressing issues that have been emerging in recent years in the interdisciplinary field of 'European penology', that is, a space where legal scholarship, criminology, sociology and political science meet - or should meet - in order to make sense of punishment in Europe. The chapters in European Penology? have been written by leading scholars in the field and focus in particular on the interaction of European academic penology and national practice with European policies as developed by the Council of Europe and, increasingly, by the European Union.

This book studies the dynamics of political discourse in governance processes. It demonstrates the process in which political discourses become normative mechanisms, first marking socially constructed realities in politics, second playing a role in delineating the subsequent policy frames, and third influencing the public sphere.

1. 100% Based on NCERT Guidelines. 2. Important questions have been include chapterwise and unitwise. 3. Previous year questions with answers of board examinations have been included. 4. Solved Model Test Papers for board examination preparation for the current year have been included. 1. Accounting for Not-for-Profit Organizations, 2. Accounting for Partnership Firms : Fundamentals, 3. Reconstitution of Partnership—Change in Profit-Sharing Ratio among the Existing Partners, 4. Reconstitution of Partnership : Death of a Partner, 8. Dissolution of a Partnership Firm, 9. Issue, Forfeiture and Re-issue of Shares, 10 . Issue of Debentures, 11. Redemption of Debentures, 12. Financial Statements of a Company : Balance Sheet of A Company, 13. Financial (Statements) Analysis, 14. Tools of Financial Analysis : Comparative Statements, 15. Accounting Ratios, 16. Cash Flow Statement. Model Paper Set 1-2(BSEB) (With OMR Sheet) Board Examination Paper (CBSE).

Offering authoritative coverage of the vast array of major clinical issues in epilepsy surgery-from the selection of surgical candidates to presurgical evaluation, surgical techniques, and postoperative rehabilitation-this reference presents a series of essays on the principles and controversies in the field with focused segments that express differing viewpoints by experienced clinicians in the discipline.

This book is specially designed for the students appearing in CPT (Common Proficiency Test) Examination of ICAI. It has been written strictly in accordance with the Latest Syllabus prescribed by ICAI.

This book contains the Proceedings of the Fifth Meeting on CPT and Lorentz Symmetry, held at Indiana University in Bloomington from June 28 to July 2, 2010. The Meeting focused on tests of these fundamental symmetries and on related theoretical issues, including scenarios for possible violations. Topics covered at the meeting include searches for CPT and Lorentz violations involving: birefringence and dispersion from cosmological sources, clock-comparison measurements, CMB polarization, electromagnetic resonant cavities, equivalence principle, gauge and Higgs particles, high-energy astrophysical observations, laboratory and gravimetric tests of gravity, matter interferometry, neutrino oscillations, oscillations and decays of K, D, B mesons, particle-antiparticle comparisons, post-newtonian gravity in the solar system and beyond, second- and third-generation particles, space-based missions, spectroscopy of hydrogen and antihydrogen, and spin polarized matter. Theoretical discussions include physical effects at the level of the Standard Model, General Relativity, and beyond; the possible origins and mechanisms for Lorentz and CPT violations; and related classical and quantum issues in field theory, particle physics, gravity, and string theory.

The Dow Corning case raised serious questions about the safety of silicone breast implants and about larger issues of medical device testing and patient education. Safety of Silicone Breast Implants presents a well-documented, thoughtful exploration of the safety of these devices, drawing conclusions from the available research base and suggesting further questions to be answered. This book also examines the sensitive issues surrounding women's decisions about implants. In reaching conclusions, the committee reviews: The history of the silicone breast implant and the development of its chemistry. The wide variety of U.S.-made implants and their regulation by the Food and Drug Administration. Frequency and consequences of local complications from implants. The evidence for and against links between implants and autoimmune disorders, connective tissue disease, neurological problems, silicone in breast milk, or a proposed new syndrome. Evidence that implants may be associated with lower frequencies of breast cancer. Safety of Silicone Breast Implants provides a comprehensive, well-organized review of the science behind one of the most significant medical controversies of our time.

Cambridge O Level Principles of Accounts has been designed specifically to meet the requirements of the Cambridge syllabus. Cambridge O Level Principles of Accounts has been written specifically for the Cambridge O Level Accounting syllabus. Accounting principles and practices have been explained in simple language to enhance the accessibility of the contents to students whose first language is not English. The book reflects the changes in the O Level Principles of Accounts syllabus and applies international accounting terminology.
