Provides the final report of the 9/11 Commission detailing their findings on the September 11 terrorist attacks.

"A most persuasive work that repositions the American debates over emancipation where they clearly belong, in a broader Anglo-Atlantic context." -- Reviews in History While many historians look to internal conflict alone to explain the onset of the American Civil War, in *The Problem of Emancipation*, Edward Bartlett Rugemer places the origins of the war in a transatlantic context. Addressing a huge gap in the historiography of the antebellum United States, he explores the impact of Britain's abolition of slavery in 1834 on the coming of the war and reveals the strong influence of Britain's old Atlantic empire on the United States' politics. He demonstrates how American slaveholders and abolitionists alike borrowed from the antislavery movement developing on the transatlantic stage to fashion contradictory portrayals of abolition that became central to the arguments for and against American slavery. Richly researched and skillfully argued, *The Problem of Emancipation* explores a long-neglected aspect of American slavery and the history of the Atlantic World and bridges a gap in our understanding of the American Civil War. "Most discussions about the roots of the American Civil War seldom stray beyond the nation's borders, but Rugemer makes a persuasive case for why that should change." -- Charleston (SC) Post

and Courier "A tremendous contribution to the greatest issue and ongoing controversy in pre--twentieth-century American historiography: the causes of the American Civil War. I was quite unprepared for Rugemer's crucial discoveries as he studied the way dozens of southern and northern newspapers responded to the British West Indian slave insurrections, to the British act of emancipation, and to the consequences of this so-called Mighty Experiment. Few historians have shown such sophistication in analyzing the rapidly changing pre--Civil War media and the shifts in public opinion." -- David Brion Davis, author of *Inhuman Bondage: The Rise and Fall of Slavery in the New World*

"45 years ago, Black American feminists convened as architects for a new revolution that thrives today, finding its home and building its strengths within Black women's online communities and digital spaces"--

Born to a wealthy family in West Africa around 1770, Omar Ibn Said was abducted and sold into slavery in the United States, where he came to the attention of a prominent North Carolina family after filling "the walls of his room with piteous petitions to be released, all written in the Arabic language," as one local newspaper reported. Ibn Said soon became a local celebrity, and in 1831 he was asked to write his life story, producing the only known surviving American slave narrative written in Arabic. In *A Muslim American Slave*, scholar and translator Ala Alryyes offers both a definitive translation and an authoritative edition of this singularly important work, lending new insights into the early history of Islam in America and exploring the multiple, shifting interpretations of Ibn Said's narrative by the nineteenth-century missionaries, ethnographers, and intellectuals who championed it. This edition presents the English translation on pages facing facsimile pages of Ibn Said's Arabic narrative, augmented by Alryyes's comprehensive introduction, contextual essays and historical commentary by leading literary critics and scholars of Islam and the African diaspora, photographs, maps, and other writings by Omar Ibn Said. The result is an invaluable addition to our understanding of writings by enslaved Americans and a timely reminder that "Islam" and "America" are not mutually exclusive terms. This edition presents the English translation on pages facing facsimile pages of Ibn Said's Arabic narrative, augmented by Alryyes's comprehensive introduction and by photographs, maps, and other writings by Omar Ibn Said. The volume also includes contextual essays and historical commentary by literary critics and scholars of Islam and the African diaspora: Michael A. Gomez, Allan D. Austin, Robert J. Allison, Sylviane A. Diouf, Ghada Osman, and Camille F. Forbes. The result is an invaluable addition to our understanding of writings by enslaved Americans and a timely reminder that "Islam" and "America" are not mutually exclusive terms. Best Books for General Audiences, selected by the American Association of School Librarians

"Hart's argument that we need to drastically revise our current view of illegal drugs is both powerful and timely . . . when it comes to the legacy of this country's war on drugs, we should all share his outrage." —The New York Times Book Review From one of the world's foremost experts on the subject, a powerful argument that the greatest damage from drugs flows from their being illegal, and a hopeful reckoning with the possibility of their use as part of a responsible and happy life Dr. Carl L. Hart, Ziff Professor at Columbia University and former chair of the Department of Psychology, is one of the world's

## Get Free Dr Umar Johnson The Prince Of Pan Afrikanism

preeminent experts on the effects of so-called recreational drugs on the human mind and body. Dr. Hart is open about the fact that he uses drugs himself, in a happy balance with the rest of his full and productive life as a colleague, husband, father, and friend. In *Drug Use for Grown-Ups*, he draws on decades of research and his own personal experience to argue definitively that the criminalization and demonization of drug use—not drugs themselves—have been a tremendous scourge on America, not least in reinforcing this country's enduring structural racism. Dr. Hart did not always have this view. He came of age in one of Miami's most troubled neighborhoods at a time when many ills were being laid at the door of crack cocaine. His initial work as a researcher was aimed at proving that drug use caused bad outcomes. But one problem kept cropping up: the evidence from his research did not support his hypothesis. From inside the massively well-funded research arm of the American war on drugs, he saw how the facts did not support the ideology. The truth was dismissed and distorted in order to keep fear and outrage stoked, the funds rolling in, and Black and brown bodies behind bars. *Drug Use for Grown-Ups* will be controversial, to be sure: the propaganda war, Dr. Hart argues, has been tremendously effective. Imagine if the only subject of any discussion about driving automobiles was fatal car crashes. *Drug Use for Grown-Ups* offers a radically different vision: when used responsibly, drugs can enrich and enhance our lives. We have a long way to go, but the vital conversation this book will generate is an extraordinarily important step.

*Hidden Embers* is a book for teachers who work expectantly with some of our schools' lowest performing students. These students live disproportionately, in our country's inner cities and poor rural communities. This book boldly declares that some educators and policy makers are making erroneous judgements about the ability of these students. *Hidden Embers*... cautions educators and policy makers to sweep away the ash of hopelessness, distrust and anger which has been heaped upon the children due to largely to factors beyond their control. In school they have just learned to roll with their perceptions of reality. Before we toss them onto the heap of failure employ some of the strategies collected in this insightful yet practical guide. There are burning embers hidden beneath the ashes. Embers of motivation, creativity, excitement and hope for the future. It requires pure educators, willing to run a soft brush over the heavy ashes, the students' delayed potential. Discover glowing embers: dreams in the student's delayed potential. Discover glowing embers: dreams in the student everyone else thought had been extinguished

One of America's most celebrated poets challenges us with this powerful and deeply personal collection of verse that speaks to the injustices of society while illuminating the depths of her own heart. For more than thirty years, Nikki Giovanni's poetry has inspired, enlightened, and dazzled readers. As sharp and outspoken as ever, this artist long hailed as a healer and a sage returns with this profound book of poetry in which she continues to call attention to injustice and give readers an unfiltered look into the most private parts of herself. In *Make Me Rain*, she celebrates her loved ones and unapologetically declares her pride in her black heritage, while exploring the enduring impact of the twin sins of racism and white nationalism. Giovanni reaffirms her place as a uniquely vibrant and relevant American voice with poems such as "I Come from Athletes" and "Rainy Days"—calling out segregation and Donald Trump; as well as "Unloved (for Aunt Cleota)"

and “When I Could No Longer”—her personal elegy for the relatives who saved her from an abusive home life. Stirring, provocative, and resonant, the poems in *Make Me Rain* pierce the heart and nourish the soul.

In 1927, Zora Neale Hurston went to Plateau, Alabama, just outside Mobile, to interview eighty-six-year-old Cudjo Lewis. Of the millions of men, women, and children transported from Africa to America as slaves, Cudjo was then the only person alive to tell the story of this integral part of the nation’s history. Hurston was there to record Cudjo’s firsthand account of the raid that led to his capture and bondage fifty years after the Atlantic slave trade was outlawed in the United States. In 1931, Hurston returned to Plateau, the African-centric community three miles from Mobile founded by Cudjo and other former slaves from his ship. Spending more than three months there, she talked in depth with Cudjo about the details of his life. During those weeks, the young writer and the elderly formerly enslaved man ate peaches and watermelon that grew in the backyard and talked about Cudjo’s past—memories from his childhood in Africa, the horrors of being captured and held in a barracoon for selection by American slavers, the harrowing experience of the Middle Passage packed with more than 100 other souls aboard the *Clotilda*, and the years he spent in slavery until the end of the Civil War. Based on those interviews, featuring Cudjo’s unique vernacular, and written from Hurston’s perspective with the compassion and singular style that have made her one of the preeminent American authors of the twentieth-century, *Barracoon* masterfully illustrates the tragedy of slavery and of one life forever defined by it. Offering insight into the pernicious legacy that continues to haunt us all, black and white, this poignant and powerful work is an invaluable contribution to our shared history and culture.

“From Colin Kaepernick to Donald Trump: A New Age of Crisis” is the sixteenth book by Dwayne Wong (Omowale). This book is also a direct sequel to “The Black African Crisis in the Age of a Black President.” In this book Eddie Wilson returns to tackle a variety of topics that concern African people including the protests in the National Football League, Donald Trump, the destruction of the African family, corruption in Africa, and much more.
