Gardner Engine Forum. has been set up by volunteers and is run by a committee in the UK. Its purpose is to foster the interest that exists between fellow . members in the appreciation of the Gardner Engine manufacturer. We produce a twice yearly magazine and also hold a bi-annual rally of boats, marine, road vehicles and stationary engines in different locations within the UK. Due to the ...

Seeing is Understanding. The first VISUAL guide to marine diesel systems on recreational boats. Step-by-step instructions in clear, simple drawings explain how to maintain, winterize and recommission all parts of the system - fuel deck fill - engine - batteries - transmission - stern gland - propeller. Book one of a new series. Canadian author is a sailor and marine mechanic cruising aboard his 36-foot steel-hulled Chevrier sloop. Illustrations: 300+ drawings
Pages: 222 pages Published: 2017 Format: softcover Category: Inboards, Gas & Diesel

Surprisingly very little has been written about the famous Gardner engine company whose diesel engines were renowned for economy, reliability, and longevity. This company was a true pioneer of diesel engine propulsion for automotive purposes, but it also had considerable influence in industrial, marine, and rail traction fields. After some seven years of research this is the full history of Gardner's from its origins in 1868 to its virtual demise in the mid-1990s. The book has been written with input from Dion Houghton and Paul Gardner and much of the information has never been made public knowledge before. Containing 224 pages of very informative text and appendices and illustrated with over 260 historic photographs.
