We'll be clear on that and why to buy at the beginning. I've started as a student in classical guitar, music school graduated. Well, something deep inside always told me what I wanted more and different. I was too young when the first time I've discovered Metallica on my friend's older brother's cassette recorder! I can't express how I was amazed! No surprise that later Kirk Hammett became my guitar hero. And still remains the one of the greatest on my own guitar Heroes Olympus (yes, not only Kirk)! Well, I guess that there are multiple factors can influence you and inspire the start playing. Dive deep into your feelings, what's where? My most powerful motivator - my Heroes. Who's yours? I recommend to read and watch as many materials about your guitar hero as possible before you get your guitar. Why? Because you'll wish your Heroes electric guitar! It's so powerful, feel this? Learn more and more about Hero and you'll understand why Hero plays this instrument. What's interesting - at first glance, all electric guitars are the same instruments. Body, neck, can plugin into an amp and play with the effects - what else? The physics is the same - convert sound waves into electric. Where is the difference? I'd prefer to compare this case with cars. Let's go and explore the difference!
