The 14th Edition of HORIZONS: EXPLORING THE UNIVERSE is fully updated with the latest astronomy discoveries and online resources to meet the needs of today's students. The unique and compelling stars-first organization allows students to see that the planets of our solar system are a natural byproduct of star formation. Focusing on two central questions -- What are we? and How Do We Know? -- Seeds and Backman help students understand their place in the universe and how scientists work. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

Fully updated to reflect the latest cutting-edge discoveries, the Twelfth Edition of Mike Seeds's and Dana Backman's best-selling HORIZONS: EXPLORING THE UNIVERSE engages students by focusing on two central questions: How Do We Know? which emphasizes the role of evidence in the scientific process, providing insights into how science works; and What Are We? which highlights our place as planet dwellers in an evolving universe, guiding students to ask questions about where we came from and how we formed a perspective that the study of astronomy is uniquely positioned to emphasize. And because every course is as unique as its instructor--and its students--HORIZONS is supported by a range of teaching and learning solutions that allow you to craft the best course for your approach and course needs. Our innovative instructor resources include WebAssign online homework management and exclusive audience response technology. Students can select from several eBook options, student tutorial systems, or virtual laboratory experiments. HORIZONS provides the ideal foundation--our powerful technology tools are the building blocks that help you customize your course to fit your and your students' needs. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

Lucky number 13 for HORIZONS: EXPLORING THE UNIVERSE, International Edition means the proven Seeds/Backman approach and trusted content, fully updated with the latest discoveries and online resources to meet the needs of today's diverse learners. Going beyond a simple refresh of the printed text format, Cengage Learning has invested in our bestselling astronomy title to offer a range of digital solutions, including Enhanced WebAssign, text specific online tutorials, Virtual Astronomy Labs 2.0, and more. Whether you need a robust online learning system or a turn-key solution to engage students outside the classroom, HORIZONS: EXPLORING THE UNIVERSE, 13E, International Edition delivers!

Fascinating, engaging, and extremely visual, Foundations of Astronomy Twelfth Edition emphasizes the scientific method throughout as it guides students to answer two fundamental questions: What are we? And how do we know? Updated with the newest developments and latest discoveries in the exciting study of astronomy, authors Michael Seeds and Dana Backman discuss the interplay between evidence and hypothesis, while providing not only fact but also a conceptual framework for understanding the logic of science. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

Fascinating, engaging, and extremely visual, STARS AND GALAXIES emphasizes the scientific method throughout as it guides students to answer two fundamental questions: What are we? And how do we know? Updated with the newest developments and latest discoveries in the field of astronomy, authors Michael Seeds and Dana Backman discuss the interplay between evidence and hypothesis, while providing not only facts but also a conceptual framework for understanding the logic of science. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

Shows students their place in the universe - not just their location, but their role as planet dwellers in an evolving universe. This title also shows them how science works. It provides not just a series of facts, but a conceptual framework for understanding the logic of astronomical knowledge.

Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

FOUNDATIONS OF ASTRONOMY, 11e, INTERNATIONAL EDITION brings science to life. With this newly revised Eleventh Edition of FOUNDATIONS OF ASTRONOMY, INTERNATIONAL EDITION, best-selling authors Mike Seeds and Dana Backman strive to help students use astronomy to understand science--and use science to understand what we are. Fascinating, engaging, and extremely visual, this text emphasizes the scientific method throughout as it guides students to answer two fundamental questions: What are we? And how do we know? In discussing the interplay between evidence and hypothesis, the authors provide not only fact but also a conceptual framework for understanding the logic of science. The Eleventh Edition addresses the newest developments and latest discoveries in the exciting study of astronomy, including information to emphasize observations over the entire electromagnetic spectrum; new data on star formation and stellar structure; new insight on global warming and ozone depletion; updated information on the Kuiper belt and dwarf planets; and more. Whether you choose to assign homework in an online environment, give your students access to an affordable and interactive online text, or do both, the new FOUNDATIONS OF ASTRONOMY, INTERNATIONAL EDITION Online Version is the ideal solution for your course needs, giving your students Web-based access to a digital version of the text. In addition, the new online Enhanced WebAssign® homework management system enables you to easily assign and manage homework online.

Fascinating, engaging, and extremely visual, this Enhanced Thirteenth Edition of FOUNDATIONS OF ASTRONOMY brings readers up-to-date on the developments and discoveries in the exciting field of astronomy as recent as the summer 2015 New Horizons studies of Pluto and its moons. Throughout the book, authors Michael Seeds and Dana Backman emphasize the scientific method as they guide students to answer two fundamental questions: What are we? And how do we know? In every chapter, the book discusses the interplay between evidence and hypothesis, providing both factual information and a conceptual framework for understanding the logic of science. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.
