The Icom AT-500 HF automatic antenna tuner is an  
exceptionally hardy piece of gear. With reasonable  
care, it will give many years of good service. Like any  
electromechanical device, the AT-500 benefits from  
occasional maintenance (cleaning and lubrication).  
This will improve its reliability and prolong its useful  
life.

A groundbreaking study that transforms how we see and address the most misunderstood problem on college campuses: widespread sexual assault. The fear of campus sexual assault has become an inextricable part of the college experience. And for far too many students, that fear is realized. Research has shown that by the time they graduate, as many as one in three women and almost one in six men will have been sexually assaulted. But why is sexual assault such a common feature of college life? And what can be done to prevent it? Sexual Citizens provides answers. Drawing on the Sexual Health

## Download Free Icom At 500 User Guide

Initiative to Foster Transformation (SHIFT) at Columbia University, the most comprehensive study of sexual assault on a campus to date, Jennifer S. Hirsch and Shamus Khan present an entirely new framework that emphasizes sexual assault's social roots, transcending current debates about consent, predators in a "hunting ground," and the dangers of hooking up. *Sexual Citizens* is based on years of research interviewing and observing college life—with students of different races, genders, sexual orientations, and socioeconomic backgrounds. Hirsch and Khan's landmark study reveals the social ecosystem that makes sexual assault so predictable, explaining how physical spaces, alcohol, peer groups, and cultural norms influence young people's experiences and interpretations of both sex and sexual assault. Through the powerful concepts of "sexual projects," "sexual citizenship," and "sexual geographies," the authors offer a new and widely-accessible language for understanding the forces that shape young people's sexual relationships. Empathetic, insightful, and far-ranging, *Sexual Citizens* transforms our understanding of sexual assault and offers a roadmap for how to address it.

If you work in a university, you are almost certain to have heard the term 'open access' in the past couple of years. You may also have heard either that it is the utopian answer to all the problems of research dissemination or perhaps that it marks the beginning of an apocalyptic new era of 'pay-to-say' publishing. In this book, Martin Paul Eve sets out the histories,

## Download Free Icom At 500 User Guide

contexts and controversies for open access, specifically in the humanities. Broaching practical elements alongside economic histories, open licensing, monographs and funder policies, this book is a must-read for both those new to ideas about open-access scholarly communications and those with an already keen interest in the latest developments for the humanities. This title is also available as Open Access via Cambridge Books Online.

InfoWorld is targeted to Senior IT professionals. Content is segmented into Channels and Topic Centers. InfoWorld also celebrates people, companies, and projects.

With an emphasis on passive sampling, this volume focuses on the environmental monitoring for common gaseous pollutants. It offers an overview of the history and nature of pollutants of concern to museums and the challenges facing scientists, conservators, and managers seeking to develop target pollutant guidelines to protect cultural property.
