The original series from the Master of Fright--now a major motion picture in theaters August 7, 2015! Kat and her brother, Daniel, are so lucky. They just moved to a new house with tons of rooms, two balconies, and a lawn the size of a football field. But all that good luck is about to run out. Because there's something really evil living in their new house. Something that's moving. Watching. Waiting. Something that comes from beneath the kitchen sink...

Dear possible reader of this book, I want to be a writer, just like my uncle Harold, who wrote a bunch of books about our friend Bunnica. So I wrote this story. And boy! Did I ever get into trouble! My friend Delilah stopped speaking to me because I put her in my book. Uncle Harold stopped speaking to me because I didn't put him in my book. A writer's life isn't easy! But back to my story: It's about how a talented and lovable (not to mention smart) wirehaired dachshund puppy named Howie saves the world from a disgusting, evil menace named...oops, that would give away the story. But trust me, this menace is disgusting and evil, all right!!! Your friend, Howie

Kat finds a sponge under the sink. It looks ordinary, but it's really an evil creature that flourishes by sucking up the bad luck of its owner.

A collection of weird sea stories exploring the strangeness lurking beneath everyday reality. Includes 'The Selkie' by Joanne Harris.

For use in schools and libraries only. An evil creature called the Sponge appears to be an ordinary kitchen sponge, but thrives on human bad luck, which it deliberately causes and then sucks up while refusing to do the dishes.

This is the sequel to the cult film. In the 1950s, the U.S. Navy encountered and destroyed a gigantic octopus that attacked shipping and wreaked havoc on the west coast of the United States. American forces killed the creature and ended the threat once and for all. Or so they thought. They were wrong. Now, another monster is rising in the warm blue waters surrounding Taru Taru, a speck of land far out in the Pacific. And this time it's worse than anyone ever imagined.
