Marción de Sínope (siglo II): Es el único gnóstico que reconoció a Jesús de Nazaret como único y verdadero Hijo de Dios. Sin embargo, el Dios que propugna Marción no es el Dios del Antiguo Testamento y, por lo tanto, su acto, más que redentor, es liberador. Es decir, el Dios del Antiguo Testamento crea al hombre y el Dios del Nuevo Testamento lo libera o manumite pagando para ello el ...

Los gestos, las acciones, las diversas frases de la vida de Cristo eran sacramentos concretizadores del misterio de Dios. Los Santos Padres hablaban de «mysteria et sacramenta carnis Christi». Con Jesús de Nazaret «apareció la benignidad y ...

The sixth edition of this popular neuroanatomy atlas retains valuable features of prior editions: low cost and presentation of clinically relevant material in a manner conducive to self-study and review. The book has four parts. The first is a review of the organization of the nervous system, emphasizing the cranial nerves. The second is a summary of the neuroanatomical pathways with accompanying diagrams. The third summarizes the vasculature of the CNS, supplemented by illustrations of the arteries and veins with angiograms placed opposite the illustrations. The fourth is an atlas of the human brain and spinal cord with CT and MRI scans placed opposite the brain sections. With this edition, Basic Human Neuroanatomy becomes essentially an electronic book, although it remains available in print.

This allows most of the figures to be in color, and the book to be loaded onto any device that can display a PDF file. An associated website features additional learning material.
