THE classic work about improving creativity from world-renowned writer and philosopher Edward de Bono In schools we are taught to meet problems head-on: what Edward de Bono calls 'vertical thinking'. This works well in simple situations - but we are at a loss when this approach fails. What then? Lateral thinking is all about freeing up your imagination. Through a series of special techniques, in groups or working alone, Edward de Bono shows how to stimulate the mind in new and exciting ways. Soon you will be looking at problems from a variety of angles and offering up solutions that are as ingenious as they are effective. You will become much more productive and a formidable thinker in your own right. 'If more bankers and traders had read Lateral Thinking and applied the ideas of Edward de Bono to their own narrow definitions of risk, reward and human expectations, I suspect we would be in much better shape than we are' - Sir Richard Branson

The first practical explanation of how creativity works, this results-oriented bestseller trains listeners to move beyond a "vertical" mode of thought to tap the potential of lateral thinking.

"We never grow tired of good news how come' mysteries of this kind....These story brainteasers are often solved in groups...with solvers asking yes-or-no questions of the puzzle poser (the one holding this book, perhaps). A novel feature of this volume is a Clues' section containing sample questions and answers, allowing you to play along solitaire."--Games World of Puzzles. 96 pages, 24 b/w illus., 5 3/8 x 8 1/4.

First published in 1967, this remarkable title from one of history's greatest minds remains a must-read in the world of creative thinking. Based on the tenet that an error can lead to the right decision, de Bono guides the reader through a series of non-mathematical problems and puzzles, all designed to help us analyse our personal style of thinking, work out its strengths and weaknesses, and to consider the potential methods that we never use. There are three courses, each five days long and each created to focus on a different style of thinking, featuring: The Bottles Problem The Blocks Problem The L-Game The End Game A true life-changer, this book will have you thinking in ways that you never thought were possible.

A man writes the same number, and nothing else, on 20 sheets of paper. Why? To figure this out--and hundreds of other mind-bending lateral puzzles, too--you'll have to really fire up your brain and imagination. At first, it may not seem as if there's enough information to come up with a solution. But look more closely; there's always more than meets the eye. Check your assumptions, ask good questions, retune your mind, separate the facts from the red herrings, and the answers will come.

Our happiness and success depend on clear thinking. But too many of us are compromised by confusion, trying to do too much at once, and not knowing what to do next. In *Teach Yourself to Think*, Edward de Bono shows that good thinking depends on a simple five-stage process that anyone can learn. It will enable you to assess your goals, sort available information, identify the available choices, make a decision and, finally, turn thought into action. This book offers brilliant advice for anyone who needs to be able to respond to and deal with a vast range of situations at work and in life quickly, efficiently and intelligently.

Tap into your Creative potential Creativity was once thought to be a talent bestowed upon a lucky few. Today it is understood as a skill that we can all learn, develop and apply.
