This text leads students through the Office XP applications step-by-step, whilst at the same time teaching them the requirements of the European Computer Driving Licence Award.

Covers all modules of the ECDL qualification and all of the underpinning knowledge your students need to complete their assessment. Screenshots and illustrations using Office 2003 bring the theory to life, making learning easy. Skills practice throughout helps students consolidate what they have learnt. Practice material at the end of each module prepares students for the ECDL assessment. A CD-ROM with the book contains recalled text to save keying-in time, and answers to the exercises in the books.

Revised for the new specification, this textbook covers all the modules of this qualification. Skills practice helps consolidate learning. Practice material at the end of each module helps prepare students for assessment. A CD-ROM contains answers and recalled text to save time and effort.

Features a task-based, applied learning approach that addresses each skill in turn and tests students' understanding with practice exercises. This book contains exercises that follow the theory at every stage to help build students' confidence. It includes screenshots that illustrate what students will see on the screen.
