The search is now on to recruit more magistrates directly to the Family Court based at Vernon St, Liverpool, and also to the Adult Criminal Courts in Sefton, Birkenhead and QE II Law Courts in ...

This companion to the British Constitution was born out of the view that the tendency for modern political studies to concentrate on processes rather than structures results in a failure to understand basic political terminology. Readers coming to politics for the first time often do not have the basic vocabulary with which to understand the subject. This book is an attempt to provide that basic vocabulary. An introductory survey of concepts relating to the constitutional framework leads to a glossary in which basic terminology is clearly defined and extensively cross-referenced. The glossary can therefore be used as a reference to find the meaning of a word or expression, as an aid to developing a newcomer's ideas or to provide illustrative material for essays.

The two-volume A Companion to Sparta presents the first comprehensive, multi-authored series of essays to address all aspects of Spartan history and society from its origins in the Greek Dark Ages to the late Roman Empire. Offers a lucid, comprehensive introduction to all aspects of Sparta, a community recognised by contemporary cities as the greatest power in classical Greece Features in-depth coverage of Sparta history and culture contributed by an international cast including almost every noted specialist and scholar in the field Provides over a dozen images of Spartan art that reveal the evolution of everyday life in Sparta Sheds new light on a modern controversy relating to changes in Spartan society from the Archaic to Classical periods

A Companion to Paleopathology offers a comprehensive overview of this rapidly growing sub- field of physical anthropology. Presents a broad overview of the field of paleopathology, integrating theoretical and methodological approaches to understand biological and disease processes throughout human history Demonstrates how paleopathology sheds light on the past through the analysis of human and non-human skeletal materials, mummified remains and preserved tissue Integrates scientific advances in multiple fields that contribute to the understanding of ancient and historic diseases, such as epidemiology, histology, radiology, parasitology, dentistry, and molecular biology, as well as archaeological, archival and historical research. Highlights cultural processes that have an impact on the evolution of illness, death and dying in human populations, including subsistence strategies, human environmental adaptations, the effects of malnutrition, differential access to resources, and interpersonal and intercultural violence
