Landscape photography can be a solitary experience but award-winning photography David Taylor believes

Get Free Mastering

creativity requires peaceful contemplation to flourish. The ability to ignore being cold or wet, an understanding of how the weather and seasons impact on the environment, and an appreciation of navigational skills are vital attributes of the landscape photographer.

Illustrated with the

Get Free Mastering

author's own stunning images, this book reveals the skills and techniques required to capture compelling photographs in empathy with the natural world. Chapters cover equipment, exposures, lighting, preparation, filters, composition and plenty of advice on postproduction, image corrections and some

This book includes thirteen essays on landscape photography by master photographer Alain Briot. Topics include practical, technical, and aesthetic aspects of photography to help photographers build and refine their skills. Also covered is

Get Free Mastering

how to be an artist in business. Alain Briot is one of the leading contemporary landscape photographers. He received his education in France and currently works mostly in the southwestern part of the United States. This book starts with the technical aspects of photography; how to see, compose, find the

Get Free Mastering

right light, and select the best lens for a specific shot. It continues by focusing on the artistic aspects of photography with chapters on how to select your best work, how to create a portfolio, and finally concludes with two chapters on how to be an artist in business.

you consider
composition. Finally,
Phil delves into post-
production in Adobe
Camera Raw,
Photoshop, and
Photomatix.

Alain Briot states that,
"The personality of the
photographer must be
present in the image for
an artistic photograph to
have value." And in this

Get Free Mastering

book he sets out to teach the things that are essential in achieving this goal. Following his successful first book, *Mastering Landscape Photography*, Briot goes beyond the conventional rules of composition and takes on a fresh, new approach to teaching the art of photography. Based upon his personal experiences as an artist,

Get Free Mastering

landscape
Photography
teacher, and
photographer, he opens
new doors to the reader-
doors leading to new
ways of seeing and
composing images. Briot
approaches fine art
photography as being a
combination of art and
technique. In this new
book he addresses both
of these by presenting
artistic and technical
information. On the

Get Free Mastering

artistic side, Briot introduces artistic concepts that have been rarely, if ever, associated with photography. On the technical side, he presents numerous tools that can help you learn how to create better photographs and provides technical solutions to common photographic problems. The author practices

Get Free Mastering

photography as a fine art. What matters most to him is how photography can be used to express feelings and emotions. For Briot, a good photograph must be both artistically inspired and technically excellent. To have just one of these two elements is not enough for a fine art photograph to be successful. Topics

Get Free Mastering

include: - How to
compose with color,
with black and white,
and with light - Why
you need to consider
your audience while
composing a
photograph - Recreate
the emotions you felt
when you captured your
photographs - How the
elements of color-hue,
contrast, and saturation-
work in your images -

Craft of Great
Landscape Photography
teaches photographers
how to convert their
visual peak experiences-
moments of

Get Free Mastering

extraordinary natural beauty that evoke a sense of wonder and awe-into stunning images that elicit the same awestruck emotion in their viewers. Randall is an experienced wilderness photographer, and whether you want to venture into the mountains for once-in-a-lifetime shots of raw

Get Free Mastering

landscape photography, or simply hone your landscape photography skills from the safety of your back deck, Randall explains the art, science and craft of creating astounding images. Randall begins by focusing on the art of landscape photography. He describes his three-step process for composing a photograph and shows

Get Free Mastering

how good composition is an organic process that begins with rules but ultimately transcends them.

Randall then explores the science behind successful landscape photographs, which requires understanding key concepts from geography, optics, vision, and psychology. These concepts include:

Get Free Mastering

Understanding how the position of the sun at sunrise and sunset varies throughout the year, which will help you plan when and where to shoot. Understanding optics to predict where rainbows will appear, how polarizers will interact with reflections, and where to find spectacular light.

Understanding how to

Get Free Mastering

use topographic maps and computerized mapping tools to help you find the most promising shooting locations in the wilderness.

Understanding how our visual system analyzes images and the psychology of how we view art. These insights will help you produce successful photographs.

Get Free Mastering

Exposure is a central aspect of the craft of landscape photography, and Randall tackles the challenges of this topic from every angle—from tips on calculating exposures in the field, to achieving correct exposure in high-contrast lighting situations, to the best digital darkroom techniques. Great
