A Study Guide for Maxwell Anderson's "Winterset," excerpted from
Gale's acclaimed Drama For Students. This concise study guide includes
plot summary; character analysis; author biography; study questions;
historical context; suggestions for further reading; and much more.
For any literature project, trust Drama For Students for all of your
research needs.

A premier singer and master teacher here tells other singers how to
get the most from 151 famous arias selected for their popularity or
their greatness from 66 operas, ranging in time and style from
Christopher Gluck to Carlisle Floyd, from Mozart to Menotti. "The most
memorable thrills in an opera singer's life," according to the
author's Introduction, "may easily derive from the great arias in his
or her repertoire." This book continues the work Martial Singher has
done, in performances, in concerts, and in master classes and lessons,
by drawing attention "not only to precise features of text, notes, and
markings but also to psychological motivations and emotional impulses,
to laughter and tears, to technical skills, to strokes of genius, and
even here and there to variations from the original works that have
proved to be fortunate." For each aria, the author gives the dramatic
and musical context, advice about interpretation, and the lyric--with
the original language (if it is not English) and an idiomatic American
English translation, in parallel columns. The major operatic
traditions--French, German, Italian, Russian, and American--are
represented, as are the major voice types--soprano, mezzo-soprano,
tenor, baritone, bass-baritone, and bass. The dramatic context is not
a mere summary of the plot but is a penetrating and often witty
personality sketch of an operatic character in the midst of a
situation. The musical context is presented with the dramatic
situation in a cleverly integrated way. Suggestions about
interpretation, often illustrated with musical notation and phonetic

symbols, are interspersed among the author's explication of the music and the action. An overview of Martial Singher's approach--based on fifty years of experience on stage in a hundred roles and in class at four leading conservatories--is presented in his Introduction. As the reader approaches each opera discussed in this book, he or she experiences the feeling of participation in a rehearsal on stage under an urbane though demanding coach and director. The Interpretive Guide will be of value to professional singers as a source of reference or renewed inspiration and a memory refresher, to coaches for checking and broadening personal impressions, to young singers and students for learning, to teachers who have enjoyed less than a half century of experience, and to opera broadcast listeners and telecast viewers who want to understand what goes into the sounds and sights that delight them.

In this compelling sequel to *Power Quest Book One: America's Obsession with the Paranormal*, S. Douglas Woodward reveals the hidden history of Nazi infestation of American institutions after World War II. Beginning with the 1952 flying saucer flap over the nations capital and concluding with the CIA's clandestine mind control agenda of the 1950s-1970s, the reader is confronted with highly charged and seldom known facts. The story centers on America's erstwhile alliance with German fascism linked to the infamous personalities of Hitler's Nazi Party who escaped the war crimes trials at Nuremberg. In this second volume of *Power Quest, The Ascendancy of Antichrist in America*, Woodward brings to the reader the recently declassified proof our America has often shunned its most noble ideals. The author uncovers a vast record of unethical and deceptive Federal activities committed in Washington's darkened corridors of political power. Woodward condenses mountains of highly reliable research compiled by authoritative investigative journalists and insiders along with his own well-turned analysis, demonstrating that the political and spiritual evil of Nazism was often excused and encouraged by American officials as part of a blind quest to fight communism during the Cold War. Woodward makes no secret of his evangelical perspective. But *Power Quest: The Ascendancy of Antichrist in America* is not a selective proof texting of biblical assertions or a diatribe against liberal political views. His account is a factual his-tory that most Americans have never heard. For conservative Christian readers, Woodward speaks prophetically - challenging the cherished assumption held by political conservatives that America traditionally takes the moral high ground. And he poses an alternative view to the typical eschatological position, asking "Could America be the seat of power for a literal personage the Bible calls Antichrist?"
