In the fall of 1992 a conference honoring Elwood S. Buffa was held at the Anderson Graduate School of Management of the University of California, Los Angeles. This book is a collection of the work presented at that conference. The scholars who gathered to honor El are the

prominent researchers in the field of Operations Management. Their collective work published in this book represents the richness of the field and provides the reader with valuable insights into its important issues and problems. While any grouping of the articles by these distinguished scholars will be arbitrary, I have organized the book in four sections. In the first section the articles dealing with the strategic issues in Operations Management are compiled. The articles deal with continuous improvement, quality, services, supply chain management, and creating value through operations. The articles that explore the interface of Operations Management with other functional areas, e.g. engineering and marketing, are grouped in the second section. The third section of the book contains articles that attempt to model some important planning problems that arise in the management of production and operations. Some of the papers in this section provide state of the art reviews of selected topic areas. Finally, the fourth section contains articles that deal with future directions for Operations Management. The authors offer several insights into the future evolution of the field. The book begins with the keynote address given by El Buffa at the start of the conference on November 2, 1991.

She works to live . . . One would think the last place a beauty like Fallon O'Rourke could keep her virtue was in the Mayfair mansion of London's most licentious duke, the notorious Dominic Hale. Yet Fallon—who's endured nothing but lecherous advances since her father's tragic death—is perfectly safe there . . . disguised as a footman! Beneath the notice of the dark-haired devil with his smoldering blue eyes and sinful smile, Fallon never imagines her secret will be

discovered. But how long can her deception last when she begins to wish she is one of the many women traipsing in and out of the sinful rogue's bedchamber? He lives to sin . . . Most men envy the duke, never suspecting his pleasure-loving ways are a desperate attempt to escape, however briefly, the pain of a past that's left him with a heart of stone. Only one woman can break down his defenses. Only one woman can win his love . . . if she reveals her secret and succumbs to the sins of the wicked duke.

"Welcome to Sugarville, a mythical town in the northeast suburbs of Atlanta where the past, the present, and the future collide and residents embark on spiritual journeys to find themselves." In the town of Sugarville, a small suburb outside Atlanta, Georgia, life couldn't be more normal. One man schedules a doctor's appointment, another receives a mysterious package, and another quits his job to prepare for an apocalypse that may or may not come. Ordinary events in ordinary lives, or so it would seem. With each story comes a new layer of intrigue that charms as much as it chills, each "What if?" answered to its fullest and darkest consequence. In "God Helps Those Who Help Themselves," a devastating drought tests the limits of one man's thirst. "The Last Known Believer" follows the Rapture as it goes not quite according to plan. J.J. Haas stuns and delights with his first collected volume of original short stories, relying on a wry wit that explores each sinister twist and turn the human spirit has to offer.
