Presents lessons plans, facilitation techniques, and activities to create diversity awareness in middle and high school students.

Sad when the swallows leave for the winter, young Juan prepares to welcome them back to the old California Mission at Capistrano on St. Joseph's Day the next spring.

The kids in Room 207 take advantage of their teacher's good nature until she disappears and they are faced with a vile substitute.

Mysteries abound in this exciting race through Rome! Beatrice Archer may love history, and Rome may be chock-full of it, but that doesn't mean she wants to move there! Too bad Beatrice's father got a job as the head of the history department at the American Academy in Rome-now, Beatrice has no choice but to get used to the idea. When she arrives in Rome she explores her new city as much as she can, but it isn't until she hears talk of a strange neighborhood legend that Beatrice perks up. A centuries-old unsolved mystery about the beautiful turtle fountain outside her window? Sounds like fun! Before Beatrice has a chance to explore, though, she sees a dark figure emerge from the shadows of the square in the middle of the night-and steal the famous turtle sculptures that give the fountain its name. When no one believes her story, Beatrice knows that it's up to her to solve the crime and restore the turtles to their rightful place. With the help of her new friend Marco, she navigates a world of unscrupulous ambassadors, tricky tutors, and international art thieves to unravel one of Roman history's greatest dramas-before another priceless work of art is stolen.

In the 1920s and 30s, musicians from Latin America and the Caribbean were flocking to New York, lured by the burgeoning recording studios and lucrative entertainment venues. In the late 1940s and 50s, the big-band mambo dance scene at the famed Palladium Ballroom was the stuff of legend, while modern-day music history was being made as the masters of Afro-Cuban and jazz idiom conspired to create Cubop, the first incarnation of Latin jazz. Then, in the 1960s, as the Latino population came to exceed a million strong, a new generation of New York Latinos, mostly Puerto Ricans born and raised in the city, went on to create the music that came to be called salsa, which continues to enjoy avid popularity around the world. And now, the children of the mambo and salsa generation are contributing to the making of hip hop and reviving ancestral Afro-Caribbean forms like Cuban rumba, Puerto Rican bomba, and Dominican palo. Salsa Rising provides the first full-length historical account of Latin Music in this city guided by close critical attention to issues of tradition and experimentation, authenticity and dilution, and the often clashing roles of cultural communities and the commercial recording industry in the shaping of musical practices and tastes. It is a history not only of the music, the changing styles and practices, the innovators, venues and songs, but also of the music as part of the larger social history, ranging from immigration and urban history, to the formation of communities, to issues of colonialism, race and class as they bear on and are revealed by the trajectory of the music. Author Juan Flores brings a wide range of people in the New York Latin music field into his work, including musicians, producers, arrangers, collectors, journalists, and lay and academic scholars, enriching Salsa Rising with a unique level of engagement with and interest in Latin American communities and musicians themselves.

Argues that a manager's central responsibility is to create and implement strategies, challenges popular motivational practices, and shares anecdotes discussing how to enable action-oriented plans for real-world results.

One of the most influential critical educators of the twentieth century, Paulo Freire challenged those educational inequalities and conditions of injustice faced by oppressed populations. In this new edition of Reinventing Paulo Freire, Antonia Darder re-examines his legacy through reflections on Freirean pedagogy and the narratives of teachers who reinvent his work. The fully revised first part provides important historical, political, and economic connections between major societal concerns and educational questions raised by Freire and their link to the contemporary moment, including questions tied to neoliberalism, coloniality, and educational inequalities. At the heart of the book is a critical understanding of how Freire's pedagogy of love can inform, in theory and practice, a humanizing approach to teaching and learning. Powerful teacher narratives offer examples of a living praxis, committed to democratic classroom life and the emancipation of subaltern communities. The narratives clearly illustrate how Freire's ideas can be put concretely into practice in schools and communities. These reflections on Freirean praxis are sure to spark conversation and inspiration in teacher education courses. Through a close theoretical engagement of Freire's ideas and key insights garnered from lived experiences, the book speaks to the ways Freire can still inspire contemporary educators to adopt the spirit of liberatory pedagogy. By so doing, Reinventing Paulo Freire is certain to advance his theories in new ways, both to those familiar with his work and to those studying Freire for the first time.

A fresh insight into creative assets, these 130 challenging and lively activities will recharge youth gatherings.
