They are doing this as an organisation or as an individual. It illustrates the impact coaching can have and identifies changes in leadership and management demands and expectations. We consider what a coachee gets out of coaching, different formats for coaching and its potential value at Board level, including for the Chief Executive Officer, and for other individuals or groups such as new recruits or those who have just been promoted. We look at the difference between coaching and mentoring and the potential benefits that both can have, especially in combination. We look at how coaching programmes can be introduced effectively and how a leader might introduce coaching in their organisation. We address the international dimension with many organisations looking to ensure that leadership is based on similar values throughout its global reach. This book is unashamedly about business coaching.

are considering these questions, then this is the book for you. The coaching market is thriving but many coaches need practical help on how to develop and grow their businesses. Being a good coach is never enough. This book gives practical help based on many years of successful experience. Many coaches make the mistake of starting too broadly when the secret is to find a niche - but how do you do this? How do you find your natural clients? How do they find you? What should you charge? Should you have an office or can you work from home? Start-up costs are never as minimal as they might look, so how do you sustain yourself while you are building the business? It is essential to promote your fledgling business but which methods work and which are just a waste of time and money? You must have a web site but what should it contain to carry the right message about you and your coaching

practice? Then there is the whole question of selling - a process many coaches dread but which has to be done because word of mouth on its own will never generate enough clients to earn a decent living. Finally, how big do you ultimately want your business to be? What are the plusses and minuses of growth? This book explains step by step how to build a successful new coaching business using an innovative method of selling with integrity. Using helpful case studies, Jenny Rogers clearly analyses the practical issues that can make or break a new venture. This book is the first step in running a successful coaching business.

Introduction to psychodynamic concepts and their application to executive coaching.

Bestselling author David Taylor returns with his take on business coaching. No fuss. No jargon. Just great ideas. The Naked Coach is the back-to-basics book on coaching that will make sense of coaching and place it back at the very heart of the business agenda. It will make understanding, learning and teaching coaching simple. The Naked Coach tells real, practical, fun, exciting and above all else relevant stories that you can apply straightaway. David Taylor strips away the hype, jargon and mystery to give coaching a clear definition in all its forms, including mentoring, training, facilitation and interventions of every kind. The Naked Coach explains coaching without being patronising, defines without being arrogant,
