A proven model to create high-performing, high-trust organizations Globally, there has been a decline in trust over the past few decades, and only a third of Americans believe they can trust the government, big business, and large institutions. In The Decision to Trust, Robert Hurley explains how this new culture of cynicism and distrust creates many problems, and why it is almost impossible to manage an organization well if its people do not trust one another. High-performing, world-class companies are almost always high-trust environments. Without this elusive, important ingredient, companies cannot attract or retain top talent. In this book, Hurley reveals a new model to measure and repair trust with colleagues managers and employees. Outlines a proven Decision to Trust Model (DTM) of ten factors that establish whether or not one party will trust the other Filled with original examples from Daimler, PriceWaterhouse Coopers, Goldman Sachs, Microsoft, QuikTrip, General Electric, Procter and Gamble, AzKoNobel, Johnson and Johnson, Whole Foods, and Zappos Reveals how leaders in Asia, Europe, and North America have used the DTM to build high-trust organizations Covering trust building in teams, across functions, within organizations and across national cultures, The Decision to Trust shows how any organization can improve trust and the bottom line.

The most complete and authoritative guide to Gen Z, describing how leaders must adapt their employment, sales and marketing, product, and growth strategies to attract and keep this important new generation of customers, employees and trendsetters. Gen Z changes everything. Today's businesses are not built to sell and market the way Gen Z shops and buys, or to recruit and employ Gen Z the way they find and keep jobs. Leaders need answers now as gen Z is the fastest growing generation of employees and the most important group of consumer trendsetters. The companies that quickly and comprehensively adapt to Gen Z thinking will be the winners for the next twenty years. Those that don't will be the losers or become extinct. Zconomy is the comprehensive survival guide on how leaders must understand and embrace Generation Z. Researched and written by Dr. Denise Villa and Jason Dorsey from The Center for Generational Kinetics, the insights in Zconomy are based on their extensive research, they've led more than 60 generational studies, and their work with more than 500 companies around the world. In Zconomy, Dr. Villa and Dorsey answer: Who is Gen Z? What do employers, marketers, and sales leaders need to know? And, most importantly, what should leaders do now? This is the critical moment for leaders to understand and adapt to Gen Z or become irrelevant. Gen Z is already reshaping the world of business and this change is only going to accelerate. Zconomy is the definitive manual that will prepare any executive, manager, entrepreneur, HR or marketing professional to successfully unlock the powerful potential of this emerging generation at this pivotal time.
