This hands-on content-rich program enables you to lead your students through explorations of specific concepts within Life, Earth, and Physical Science.

Science Explorer: Life, Earth, and Physical Science is a comprehensive series that provides a balanced focus of Life, Earth, and Physical Science topics in each book.

Authored by Paul Hewitt, the pioneer of the enormously successful "concepts before computation" approach, Conceptual Physics boosts student success by first building a solid conceptual understanding of physics. The Three Step Learning Approach makes physics accessible to today's students. Exploration - Ignite interest with meaningful examples and hands-on activities. Concept Development - Expand understanding with engaging narrative and visuals, multimedia presentations, and a wide range of concept-development questions and exercises. Application - Reinforce and apply key concepts with hands-on laboratory work, critical thinking, and problem solving.
