Everyone agrees that Balzac is a realistic writer, but what do we actually mean when we say that? This book examines the richness and variety of Balzac's approaches to realism, employing several different interpretive methods. Taking love and money as the "Prime Movers" of the world of *La Comédie humaine*, twenty-one chapters provide detailed analyses of the many strategies by which the writing forges the powerful impression of reality, the construction we famously think of as Balzacian realism. Each chapter sets the methods and aims of its analysis, with particular attention to the language that conveys the sense of reality. Plots, devices, or interpretive systems (including genealogies) function as images or reflections of how the novels make their meanings. The analyses converge on the central point: how did Balzac invent realism? No less than this fundamental question lies behind the interpretations this book provides, a question to which the conclusion provides a full answer. A major book in English devoted entirely to Balzac was overdue. Here is the American voice of Balzac studies, an engaging, insightful, and revealing excursion among the masterworks of one of the most important authors of all time.

This work has been selected by scholars as being culturally important, and is part of the knowledge base of civilization as we know it. This work was reproduced from the original artifact, and remains as true to the original work as possible. Therefore, you will see the original copyright references, library stamps (as most of these works have been housed in our most important libraries around the world), and other notations in the work. This work is in the public domain in the United States of America, and possibly other nations. Within the United States, you may freely copy and distribute this work, as no entity (individual or corporate) has a copyright on the body of the work. As a reproduction of a historical artifact, this work may contain missing or blurred pages, poor pictures, errant marks, etc. Scholars believe, and we concur, that this work is important enough to be preserved, reproduced, and made generally available to the public. We appreciate your support of the preservation process, and thank you for being an important part of keeping this knowledge alive and relevant.

In this book, Maurice Samuels brings to light little known works of literature produced from 1830 to 1870 by the first generation of Jews born as French citizens. These writers, Samuels asserts, used fiction as a laboratory to experiment with new forms of Jewish identity relevant to the modern world. In their stories and novels, they responded to the stereotypical depictions of Jews in French culture while creatively adapting the forms and genres of the French literary tradition. They also offered innovative solutions to the central dilemmas of Jewish modernity in the French context—including how to reconcile their identities as Jews with the universalizing demands of the French revolutionary tradition. While their solutions ranged from complete assimilation to a modern brand of orthodoxy, these writers collectively illustrate the creativity of a community in the face of unprecedented upheaval.
