Truth is regularly stranger than fiction for the abbot of a Buddhist temple that happens to be situated right in the far-from-tranquil inner city. Here are the adventures of Bhante Walpola Piyananda, abbot of a Theravada Buddhist meditation center in Los Angeles, California. Whether he's talking a dangerously unbalanced man out of buying a gun, confronting a naked woman in his Dharma hall, helping reform gossipers and gamblers, or simply teaching meditation, Bhante is ever unflappable, and his teaching is always heartfelt, warm, and wise. To Bhante, every experience is an opportunity for learning and appreciating the Dharma, or the Buddha's teachings, and he is never at a loss for the perfect parable for the occasion. His stories are peppered with traditional Buddhist lessons, blessings, and morality tales, which he explains with clarity and zeal. But he also reflects on social and political issues and events such as the racial tension in his neighborhood after the Rodney King trial or the destruction of the Bamiyan Buddha statues in Afghanistan.

This volume is a call to re-examine assumptions about what care is and how it be practised. Rather than another demand for radical reform, it makes the case for thinking clearly and critically. It urges people living with HIV to become full partners in designing and implementing their own care and for caregivers to accept them in this role.

Led by theologian John B. Cobb Jr. and historian Ward M. Theravada is one of the three main branches of Buddhism. In Asia it is practiced widely in Thailand, Laos, Burma, Sri Lanka, and Cambodia. This fascinating ethnography opens a window onto two communities of Theravada Buddhists in contemporary America: one outside Philadelphia that is composed largely of Thai immigrants and one outside Boston that consists mainly of white converts. Wendy Cadge first provides a historical overview of Theravada Buddhism and considers its specific origins here in the United States. She then brings her findings to bear on issues of personal identity, immigration, cultural assimilation, and the nature of religion in everyday life. Her work is the first systematic comparison of the ways in which immigrant and convert Buddhists understand, practice, and adapt the Buddhist tradition in America. The men and women whom Cadge meets and observes speak directly to us in this work, both in their personal testimonials and as they meditate, pray, and practice Buddhism. Creative and insightful, Heartwood will be of enormous value to sociologists of religion and anyone wishing to understand the rise of Buddhism in the Western world.
