WALL STREET JOURNAL, LOS ANGELES TIMES, AND USA TODAY BESTSELLER □ Anyone—even you!—can learn how to harness the power of humor in business (and life), based on the popular class at Stanford's Graduate School of Business. □The ultimate guide to using the magical power of funny as a tool for leadership and a force for good.□□Daniel H. Pink, #1 New York Times bestselling author of When and Drive There exists a mistaken belief in today's corporate world: that we have to be serious all the time in order to be taken seriously. But the research tells a different story: that humor can be one of the most powerful

tools we have for accomplishing serious things. Studies show that humor makes us appear more competent and confident, strengthens relationships, unlocks creativity, and boosts our resilience during difficult times. Plus, it fends off a permanent and unsightly frown known as "resting boss face." Top executives are in on the secret: 98 percent prefer employees with a sense of humor, and 84 percent believe that these employees do better work. But even for those who intuitively understand humor's power, few know how to wield it with intention. As a result, humor is vastly underleveraged in most workplaces today, impacting our performance, relationships, and health. That's why Jennifer Aaker and Naomi Bagdonas teach the popular course *Humor: Serious Business* at the Stanford Graduate School of Business, where they help some of the world's most hard-driving, blazer-wearing business minds build levity into their

organizations and lives. In *Humor, Seriously*, they draw on findings by behavioral scientists, world-class comedians, and inspiring business leaders to reveal how humor works and—more important—how you can use more of it, better. Aaker and Bagdonas unpack the theory and application of humor: what makes something funny and how to mine your life for material. They show how to use humor to make a strong first impression, deliver difficult feedback, persuade and motivate others, and foster cultures where levity and creativity can thrive—not to mention, how to keep it appropriate and recover if you cross a line. President Dwight David Eisenhower once said, “A sense of humor is part of the art of leadership, of getting along with people, of getting things done.” If Dwight David Eisenhower, the second least naturally funny president ever (after Franklin Pierce), thought humor was necessary to win wars, build

leaders who add the most value to their companies tend to make decisions based not on short-term financial goals, but on strongly-held values. They develop a reservoir of trust among their key stakeholders and use it to speak frankly as challenges arise. These leaders are inspired by an adherence to principles that form, for each of them, a platform of rock-solid values they will not violate. TRUST brings into vivid focus the characteristics that make today's leaders successful, and the principles and techniques they use to earn the confidence of employees, colleagues, customers and the public. The ultimate playbook for using artificial intelligence to communicate effectively, build teams, and win customers Not long ago, we imagined a hyper-connected world full of trust and openness—a world where effortless communication would bring about a new understanding between people everywhere. Judging from our current environment, this vision of the future may have been overly optimistic. With infinite channels and countless voices flooding them with messages, most people have become highly skeptical and guarded by necessity. As a result, communication is much harder than ever before. Despite the unprecedented connectivity enabled by modern technology, we are far less likely to trust and to invest the time needed to build strong relationships.

How can we use technology to reverse this trend? A groundbreaking new branch of artificial intelligence—Personality AI—may be the answer. Combining traditional machine learning, data analytics, and behavioral psychology, Personality AI helps professional communicators tear down walls, establish trust with their audiences, and utilize data to build meaningful relationships, strengthen empathy, and win more customers.
