The murder of black teenager Stephen Lawrence by a gang of white youths at a bus-stop in south London, and the failure to bring anyone to justice for the crime, outraged the country. In this book Brian Cathcart decribes in detail what happened on the night,and follows step-by-step the police investigation. The result is a riveting and disturbing account of the criminal culture of south-east London, and the workings of the London police.

'This book for me is a warning as well as a reminder. May you never experience what I have experienced.' In April 1993, Stephen Lawrence was murdered by a group of young white men on a street in south-east London. From the first police investigation onwards, the case was badly mishandled. In the end, long after the case against the five suspects had been dropped, the government had to give in to mounting pressure and hold a public inquiry, which became the most explosive in British legal history. These facts leave the reader unprepared for Doreen Lawrence's own story of her son's murder. In this raw, honest book, she writes frankly about her childhood, about her struggle for a decent life for herself and her children and her hopes for her bright, motivated son. Her account of the murder and the botched and insensitive investigation by the Metropolitan Police is deeply moving. She recreates the pain, frustration and bafflement she experienced as she realised that there might never be a moment when she could say to herself that justice had been done. A cold case review led to the discovery of DNA evidence in 2009. In November 2011, two of the alleged members of the gang that killed Stephen were finally brought to trial at the Old Bailey. A guilty verdict was pronounced on 3 January 2012. 'To be put alongside Nelson Mandela's Long Walk to Freedom or the works of Maya Angelou.' Andrew Billen, The Times

Young people who come into contact with police officers on the streets of Britain today have little idea of the significance of the stabbing death of Stephen Lawrence in 1993. Only their parents or grandparents remember the daily news stories for several months following the stabbing of police incompetence and racism. This unique book reminds us of the importance of the Stephen Lawrence case, providing an insider's view of the inquiry into his murder. Presenting never-before-seen information about the Stephen Lawrence inquiry, panel member Richard Stone helps explain why it has not brought sufficient results, and why it has failed to change institutional racism. Using the case as a springboard, he discusses wider contemporary issues—such as policing practices and double-jeopardy rulings—and the lessons we can learn from the many details of the case that have otherwise been buried. Hardhitting and full of insights, this book makes essential reading for academics, students, researchers, and anyone interested in crime, police, and institutional racism.

The Stephen Lawrence tragedy - the night that changed race relations in Britain forever - is well known. Duwayne Brooks was Stephen's best friend and this is his story. It is one of friendship, of courage, a story of what really happened on the night of 22 April, 1993. It is also a warm, and in places heartbreaking account of someone who found themselves in circumstances too appalling to contemplate. As Duwayne's own story, the book also focuses on the way he himself was treated, both by his lawyer and the police, and sheds light on the manner in which the whole ordeal has been handled.

Former Detective Chief Inspector Clive Driscoll is most famous for being the man who finally secured convictions for the murder of Stephen Lawrence, a case previously mired by claims of institutional racism and corruption. For Clive, it was the pinnacle of a 35-year career with the world's most famous police force, the Metropolitan Police Service. Clive's prodigious rise through the ranks of the Met saw him front some of the most high-profile units at Scotland Yard. He was put in charge of their policy for sexual offences, domestic violence, child protection and the paedophile unit before heading up the Racial and Violent Crime Task Force tackling their backlist of cold cases. From action-packed moments chasing down criminals to more tender occasions, like gaining the trust of a murder victim's family, to making crucial legal history, and unearthing huge national scandals, In Pursuit of the Truth is the definitive account of modern day policing, its successes and failings included, seen through the eyes of a man who has dedicated his life to making a difference. This is a book that every part of society can learn from.

'Every voice raised against racism chips away at its power. We can't afford to stay silent. This book is an attempt to speak' The book that sparked a national conversation. Exploring everything from eradicated black history to the inextricable link between class and race, Why I'm No Longer Talking to White People About Race is the essential handbook for anyone who wants to understand race relations in Britain today. In July 2012 Mark Ellison QC was commissioned to conduct a review examining allegations of corruption surrounding the initial, deeply flawed, investigation of the murder of Stephen Lawrence. He was also asked to examine whether the Metropolitan Police had evidence of corruption that it did not disclose to the Macpherson Inquiry and thirdly, whether there was inappropriate undercover activity directed at the Lawrence family? On corruption, Ellison finds that specific allegations of corruption were made against 1 of the officers who had worked on the investigation of Stephen Lawrence's murder, Detective Sergeant John Davidson. The allegations were made by a police officer to his superiors but were not brought to the attention of Macpherson. The MPS's record-keeping on its own investigations into police corruption are a cause of real concern. Key evidence was the subject of mass shredding in 2003. Ellison identifies the wholly inappropriate use of an undercover officer during the Macpherson Inquiry. A Special Demonstration Squad (SDS) officer, referred to as N81, had been deployed into one of the groups seeking to influence the Lawrence family campaign, effectively becoming an MPS spy in the Lawrence family camp during the course of judicial proceedings in which the family was the primary party in opposition to the MPS. N81 also met the detective writing the MPS's submissions to the Macpherson Inquiry, a completely improper action. SDS officers also operated as if exempt from the proper rules of disclosure in criminal cases. And this means there is a real potential for miscarriages of justice to have occurred.

The suicide bombings carried out in London in 2005 by British Muslims revealed an enormous fifth column of Islamist terrorists and their sympathizers. Under the noses of British intelligence, London has become the European hub for the promotion, recruitment and financing of Islamic terror and extremism - so much so that it has been mockingly dubbed Londonistan. In this ground-breaking book Melanie Phillips pieces together the story of how Londonistan developed as a result of the collapse of traditional English identity and accommodation of a particularly virulent form of multiculturalism. Londonistan has become a country within the country and not only threatens Britain but its special relationship with the U.S. as well.
