As the daughter of an anti-terrorist agent, Gaia has her hands full as she fearlessly combats the world's enemies--hackers, terrorists, and spies--all the while battling with the most feared thing of all--an empty love life.

The Gaia Collection is the complete trilogy of all three hopeful dystopia, climate-fiction Gaia books together in one volume. The books are set 200 years in the future. Most of the planet and the human race have been decimated during The Event when the world went to war with high-energy radiation weapons. Those who are left live in isolated cities across the globe thinking themselves safe and secure from threat. In The Gaia Effect, Kira and Jed Jenkins – a young couple who were recently allocated a child – together with their closest friends, discover Corporation have been deliberately lying to them and forcing them to remain sterile. With help from Gaia, the spirit of the Earth, the group of friends begin to fight back against Corporation eventually winning and taking over the governance of City 42. In The Gaia Project, Corporation fight back under a new, more terrifying organization called New Corp and Kira, Jed and their friends end up fleeing for their lives trying to find a safe place to live. They travel to City 36 and City 9 in vain and must go further afield. In the final book, The Gaia Solution, the main characters have ended up with the Resistance and not only do they have to deal with surviving against New Corp but an extinction environmental event is looming on the horizon and they're running out of time to save what's left of the human race.

#1 The Gaia Collection - hopeful dystopian cli-fi trilogy In City 42 Corporation look after you from cradle to grave. They protect you from the radiation outside the wall. They control the food, the water, the technology and most important of all, the continuation of the human race. Kira and Jed Jenkins were lucky enough to win Collection but when their friends start falling pregnant naturally, everything changes. How long has Corporation been lying to them? Is it really toxic outside the wall? As the group comes to terms with the changes in their lives they discover there is a much more powerful and ancient force at work, trying to bridge the gap between man and nature.

Miho's backyard had always been the sea. The creatures within it were an endless source of fascination. But when the sea steals away her small family, she finds herself the ward of an uncle she has never met and submerged in a world she has never known: Japan. From the city of Nagoya to the seaside town of Goza, Miho struggles to fit in and navigate the language, the culture and her own grief. It is in Goza that she discovers her surprising family history and finds new teachers. She is befriended by an old man who becomes her Sensei and teaches her Sho-do, The Way of the Brush. And it is there she meets Gaia, the living entity of the Earth. Gaia grants her amazing powers to connect with the "minds in the water" and Miho is given access and understanding to all the world's oceans. Will she be able to use her powers to help balance the traditions of the past with the demands of the present? Can she overcome her outsider status to help others understand The Way of Water?

A collection of pinups featuring every character of Gaia Force and its affiliates.
