The Misfit Economy: Lessons in Creativity From Pirates, Hackers, Gangsters, And Other Informal Entrepreneurs is a 2015 book by Alexa Clay and Kyra Maya Phillips about the innovators and entrepreneurs amongst the underground economies and grey markets of the world.

The Misfit Economy - Wikipedia

The Misfit Economy "The Misfit Economy helps us to understand the lives of those men and women who have had to depend on illegal enterprise just to get by. In this book you'll learn how the misfit economies can bring meaning to those who are hopeless, jobless, and hungry for more than a handout."

The Misfit Economy

Far from being "deviant entrepreneurs" that pose threats to our social and economic stability, these innovators display remarkable ingenuity, pioneering original methods and practices that we can learn from and apply to move formal markets. This book investigates the stories of underground innovation that make up the Misfit Economy.

The Misfit Economy: Lessons in Creativity from Pirates ...

The Misfit Economy Book descriptions "A book that argues that lessons in creativity, innovation, salesmanship, and entrepreneurship can come from surprising places: pirates, bootleggers, counterfeiters, hustlers, and others living and working on the margins of business and society,"--Amazon.com.

The Misfit Economy: Lessons in Creativity from Pirates ...

The Misfit Economy: Lessons in Creativity from Pirates, Hackers, Gangsters and Other Informal Entrepreneurs: Clay, Alexa, Phillips, Kyra Maya: Amazon.com.au: Books

The Misfit Economy is about people who are just as innovative, entrepreneurial, and visionary as the Jobses, Edisons, and Fords of the world, except they're not operating out of Silicon Valley. They're in the street markets of Sao Paulo and Guangzhou, the rubbish dumps of Lagos, the flooded coastal towns of Thailand. They are pirates, slum dwellers, computer hackers, dissidents, and inner city gang members. Across the globe, diverse innovators are working in the black, grey, and informal economies to develop solutions to myriad challenges. Far from being "deviant entrepreneurs" that pose threats to our social and economic stability, these innovators display remarkable ingenuity, pioneering original methods and best practices that we can learn from and apply to formal markets in urgent need of change.

A book that argues that lessons in creativity, innovation, salesmanship, and entrepreneurship can come from surprising places: pirates, bootleggers, counterfeiters, hustlers, and others living and working on the margins of business and society. Who are the greatest innovators in the world? You're probably thinking Steve Jobs, Thomas Edison, Henry Ford. The usual suspects. This book isn't about them. It's about people you've never heard of. It's about people who are just as innovative, entrepreneurial, and visionary as the Jobses, Edisons, and Fords of the world. They're in the crowded streets of Shenzhen, the prisons of Somalia, the flooded coastal towns of Thailand. They are pirates, computer hackers, pranksters, and former gang leaders. Across the globe, diverse innovators operating in the black, grey, and informal economies are developing solutions to a myriad of challenges. Far from being "deviant entrepreneurs" that pose threats to our social and economic stability, these innovators display remarkable ingenuity, pioneering original methods and practices that we can learn from and apply to move formal markets. This book investigates the stories of underground innovation that make up the Misfit Economy. It examines the teeming genius of the underground. It asks: Who are these unknown visionaries? How do they work? How do they organize themselves? How do they catalyze innovation? And ultimately, how can you take these lessons into your own world?

Presents a chronology of the life of author Flannery O'Conner, comments and letters by the author about the story, and a series of ten critical essays by noted authors about her work.

Perkins, a former chief economist at a Boston strategic-consulting firm, confesses he was an "economic hit man" for 10 years, helping U.S. intelligence agencies and multinationals cajole and blackmail foreign leaders into serving U.S. foreign policy and awarding lucrative contracts to American business.

A primer on today's world economy defines such terms as globalization, virtual money, and e-commerce, placing them in the context of today's economic climate and informing readers on the issues behind economic events. Original. 17,500 first printing.

NEW YORK TIMES BESTSELLER From Blackstone chairman, CEO, and co-founder Stephen A. Schwarzman, a long-awaited book that uses impactful episodes from Schwarzman's life to show readers how to build, transform, and lead thriving organizations. Whether you are a student, entrepreneur, philanthropist, executive, or simply someone looking for ways to maximize your potential, the same lessons apply. People know who Stephen Schwarzman is--at least they think they do. He's the man who took \$400,000 and co-founded Blackstone, the investment firm that manages over \$500 billion (as of January 2019). He's the CEO whose views are sought by heads of state. He's the billionaire philanthropist who founded Schwarzman Scholars, this century's version of the Rhodes Scholarship, in China. But behind these achievements is a man who has spent his life learning and reflecting on what it takes to achieve excellence, make an impact, and live a life of consequence. Folding handkerchiefs in his father's linen shop, Schwarzman dreamed of a larger life, filled with purpose and adventure. His grades and athleticism got him into Yale. After starting his career in finance with a short stint at a financial firm called DLJ, Schwarzman began working at Lehman Brothers where he ascended to run the mergers and acquisitions practice. He eventually partnered with his mentor and friend Pete Peterson to found Blackstone, vowing to create a new and different kind of financial institution. Building Blackstone into the leading global financial institution it is today didn't come easy. Schwarzman focused intensely on culture, hiring great talent, and establishing processes that allow the firm to systematically analyze and evaluate risk. Schwarzman's simple mantra "don't lose money" has helped Blackstone become a leading private equity and real estate investor, and manager of alternative assets for institutional investors globally. Both he and the firm are known for the rigor of their investment process, their innovative approach to deal making, the diversification of their business lines, and a conviction to be the best at everything they do. Schwarzman is also an active philanthropist, having given away more than a billion dollars. In philanthropy, as in business, he is drawn to situations where his capital and energy can be applied to drive transformative solutions and change paradigms, notably in education. He uses the skills learned over a lifetime in finance to design, establish, and support impactful and innovative organizations and initiatives. His gifts have ranged from creating a new College of Computing at MIT for the study of artificial intelligence, to establishing a first-of-its-kind student and performing arts center at Yale, to enabling the renovation of the iconic New York Public Library, to founding the Schwarzman Scholars fellowship program at Tsinghua University in Beijing--the single largest philanthropic effort in China's history from international donors. Schwarzman's story is an empowering, entertaining, and informative guide for anyone striving for greater personal impact. From deal making to investing, leadership to entrepreneurship, philanthropy to diplomacy, Schwarzman has lessons for how to think about ambition and scale, risk and opportunities, and how to achieve success through the relentless pursuit of excellence. Schwarzman not only offers readers a thoughtful reflection on all his own experiences, but in doing so provides a practical blueprint for success.

Using examples set by exceptional companies as well as smaller businesses, shows business leaders how to create fanatically loyal customers--an army of "zombie loyalists"--to increase their customer base, brand awareness, and revenue.

The winners of the Nobel Prize show how economics, when done right, can help us solve the toughest social and political problems of our day. Figuring out how to deal with today's critical economic problems is perhaps the great challenge of our time. Much greater than space travel or perhaps even the next revolutionary medical breakthrough, what is at stake is the whole idea of the good life as we have known it. Immigration and inequality, globalization and technological disruption, slowing growth and accelerating climate change--these are sources of great anxiety across the world, from New Delhi and Dakar to Paris and Washington, DC. The resources to address these challenges are there--what we lack are ideas that will help us jump the wall of disagreement and distrust that divides us. If we succeed, history will remember our era with gratitude; if we fail, the potential losses are incalculable. In this revolutionary book, renowned MIT economists Abhijit V. Banerjee and Esther Duflo take on this challenge, building on cutting-edge research in economics explained with lucidity and grace. Original, provocative, and urgent, Good Economics for Hard Times makes a persuasive case for an intelligent interventionism and a society built on compassion and respect. It is an extraordinary achievement, one that shines a light to help us appreciate and understand our precariously balanced world.

Praise for Look At More "Andy Stefanovich is a masterful storyteller and a true 'curator of inspiration.' Look At More gives you a dose of Andy's adrenaline and creative can-do spirit, and it provides you with a powerful how-to guide for inspiring workplace innovation that lasts."--Beth Comstock, chief marketing officer, GE "Andy Stefanovich has always exhorted his clients to 'look at more stuff, think about it harder.' With this inspired and inspiring book, he shares dozens upon dozens of ways to put that principle to work. Look At More offers a way to real business transformation." --Daniel H. Pink, author, A Whole New Mind and Drive "Andy offers the reader a unique insight into what it really takes to create innovation within the structure of a corporate environment today. Andy doesn't think outside the box. He blows it up and starts again, helping large corporations think and behave like start-ups." --Duncan Wardle, vice president, Creative Inc., Disney Company "Andy Stefanovich delivers a host of innovative approaches to transform you and your business. The addictive narrative, while informative and actionable, is as creative as he wants us all to be."--Ivy Ross, executive vice president, marketing, Gap Brand at Gap Inc. "Look At More gives business leaders a practical and comprehensive framework to build, maintain, and most importantly inspire innovation not only at work but in all parts of life."--Stew Friedman, Wharton professor and author, Total Leadership
