The Navigator refers to the saint who is also known as St Brendan the Navigator, said to have discovered America. St Brendan set out on his famous voyage for the Land of Delight in the early 6th century. In 1976, Tim Severin, a British navigation scholar, constructed a replica of the vessel, said to have been used by Brendan and his fellow monks.

Documenting and explainging the power of Netscape Navigator, this book is the "complete Web solution" for those new to and experienced on the Internet. No longer do users need the

technical expertise to harness a palette of interdependent clinet programs. Netscape Navigator provides a single, easy-to-use, all-in-one Internet tool. The book also includes a thorough, descriptive listing of hundreds of fascinating Internet sites for research, business, education, and entertainment. (Communications/Networking)

A group of friends take an unplanned trip in search of their missing friends. Being guided only by a navigator, to an unknown destination..... they embark upon a journey, they will never forget.

A guide for new and casual users explains how to explore the World Wide Web, join online groups, use gophers, access newsgroups, and mark sites for easy revisiting

Photoshop Elements is geared for business users, students, educators, and home users who want professional-looking images for their print and Web projects, but don't want or need the advanced power of Adobe Photoshop. With Photoshop Elements 5 for Windows: Visual QuickStart Guide, readers can start reading from the beginning of the book to get a tour of the interface and start with image-editing basics, or they can look up specific tasks to learn just what they need to know. This task-based, visual reference guide uses step-by-step instructions and plenty of screenshots to show readers how to capture photos from traditional or digital cameras, reduce red eye, correct color, work with layers, erase backgrounds, create photo-illustrations and Web graphics, simulate painting and drawing techniques, apply artistic effects, and more. Newly updated to cover Photoshop Elements 5, it details the hottest new features: new advanced color and lighting controls, new customizable layouts, Flash-based web photo galleries, the new Flipbook feature, which lets you string together a series of still photos to create an eye-catching and fun flipbook, and the ability to download and edit photos directly from your mobile phone or handheld device. Both beginning and advanced users will find what they need here--in straightforward language and with readily accessible examples.
