An epic history covering the period from the end of World War I through the 1970s chronicles the decades-long migration of African Americans from the South to the North and West through the stories of three individuals and their families.

In this bestselling, beautifully written masterwork, Pulitzer Prize–winning author Isabel Wilkerson chronicles one of the great untold stories of American history: the decades-long migration of black citizens who fled the South for northern and western cities, in search of a better life. NATIONAL BOOK CRITICS CIRCLE AWARD WINNER From 1915 to 1970, this exodus of almost six million people changed the face of America. Wilkerson compares this epic migration to the migrations of other peoples in history. She interviewed more than a thousand people, and gained access to new data and official records, to write this definitive and vividly dramatic account of how these American journeys unfolded, altering our cities, our country, and ourselves. With stunning historical detail, Wilkerson tells this story through the lives of three unique individuals: Ida Mae Gladney, who in 1937 left sharecropping and prejudice in Mississippi for Chicago, where she achieved quiet blue-collar success and, in old age, voted for Barack Obama when he ran for an Illinois Senate seat; sharp and quick-tempered George Starling, who in 1945 fled Florida for Harlem, where he endangered his job fighting for civil rights, saw his family fall, and finally found peace in God; and Robert Foster, who left Louisiana in 1953 to pursue a medical career, the personal physician to Ray Charles as part of a glitteringly successful medical career, which allowed him to purchase a grand home where he often threw exuberant parties. Wilkerson brilliantly captures their first treacherous and exhausting cross-country trips by car and train and their new lives in colonies that grew into ghettos, as well as how they changed these cities with southern food, faith, and culture and improved them with discipline, drive, and hard work. Both a riveting microcosm and a major assessment, *The Warmth of Other Suns* is a bold, remarkable, and riveting work, a superb account of an “unrecognized immigration” within our own land. Through the breadth of its narrative, the beauty of the writing, the depth of its research, and the fullness of the people and lives portrayed herein, this book is destined to become a classic. NEW YORK TIMES BESTSELLER - OPRAH'S BOOK CLUB PICK - The Pulitzer Prize-winning, bestselling author of *The Warmth of Other Suns* examines the unspoken caste system that has shaped America and shows how our lives today are still defined by a hierarchy of human divisions. "An instant American classic."--Dwight Garner, *The New York Times* "As we go about our daily lives, caste is the wordless usher in a darkened theater, flashlight cast down in the aisles, guiding us to our assigned seats for a performance. The hierarchy of caste is not about feelings or morality. It is about power--which groups have it and which do not." In this brilliant book, Isabel Wilkerson gives us a masterful portrait of an unseen phenomenon in America as she explores, through an immersive, deeply researched narrative and stories about real people, how America today and throughout its history has been shaped by a hidden caste system, a rigid hierarchy of human rankings. Beyond race, class, or other factors, there is a powerful caste system that influences people's lives and behavior and the nation's fate. Linking the caste systems of America, India, and Nazi Germany, Wilkerson explores eight pillars that underlie caste systems across civilizations, including divine will, bloodlines, stigma, and more. Using riveting stories about people--including Martin Luther King, Jr., baseball's Satchel Paige, a single father and his toddler son, Wilkerson herself, and many others--she shows the ways that the insidious undertow of caste is experienced every day. She documents how the Nazis studied the racial systems in America to plan their out-cast of the Jews; she discusses why the cruel logic of caste requires that there be a bottom rung for those in the middle to measure themselves against; she writes about the surprising health costs of caste, in depression and life expectancy, and the effects of this hierarchy on our culture and politics. Finally, she points forward to ways America can move beyond the artificial and destructive separations of human divisions, toward hope in our common humanity. Beautifully written, original, and revealing, *Caste: The Origins of Our Discontents* is an eye-opening story of people and history, and a reexamination of what lies under the surface of ordinary lives and of American life today.

ABOUT THE BOOK Isabel Wilkerson's "*The Warmth of Other Suns*" is truly a labor of love. It took 15 years to research and write, as she interviewed over 1,200 people. Wilkerson tracked down her subjects at churches, quilting clubs, funerals, family reunions, and others. After

preliminary rounds of interviews, she narrowed her search down to 30 people, and then chose the three main subjects who appear in the book. She was racing against the clock to collect as many stories as possible from the migrants, whose numbers were starting to dwindle. Her book even covers the funerals of both George Starling and Robert Pershing Foster. In order to write her story in a heartfelt manner, Wilkerson recreated Robert Foster's exhausting drive from Louisiana to California. Dr. Foster drove through three states without rest because blacks weren't welcome at any motels in those regions. Wilkerson's trip was cut short by her parents, who insisted she stop before reaching dangerous levels of fatigue. At a particularly perilous tract of the drive, Wilkerson writes that her mother said, "You know he must have been ready to cry right about here." MEET THE AUTHOR Taryn was born and raised in Hawaii. She recently returned home after receiving a B.A. in English at Yale University. As a writing concentrator at Yale, Taryn focused on fiction, but as a Hyperink writer, she has learned that nonfiction can also be fun. In her free time, she likes to run at walking pace, haunt libraries, and eat pickles. EXCERPT FROM THE BOOK Critics have put Isabel Wilkerson's book on par with classics like "Roots" and "The Grapes of Wrath". The Wall Street Journal writes, "Ms. Wilkerson does for the Great Migration what John Steinbeck did for the Okies in his fiction masterpiece, The Grapes of Wrath; she humanizes history, giving it emotional and psychological depth." (The Great Northern Migration) But Ms. Wilkerson's piece deserves a category of its own. Her book goes beyond both traditional and oral history. She avoided the style of Studs Terkel, opting for a more cohesive narrative. (A Writer's Long Journey to Trace the Great Migration) Critics agree that Isabel Wilkerson's book is both beautifully written and thoroughly researched. Articles in the New York Times, Wall Street Journal, and The New Yorker can attest to that. The book's appearance on Best Book of the Year lists -- L.A. Times, The Washington Post, The New Yorker, The Economist, and more -- reflects the high quality of reporting. Yet the critics diverge in their assessment of the ending of the book and our takeaway. As Kevin Boyle writes in his Chicago Tribune review, "In the end, though, Wilkerson herself seems to blink, arguing that, despite the struggles she so beautifully describes, the Great Migration was nothing less than the fulfillment of the American Dream as the migrants themselves defined it." summary of the original book Chapter-by-chapter synopses Key Takeaways from each chapter Editorial Review Original Book Summary Overview The Warmth of Other Suns is a re-telling of The Great Migration, in which six million black southerners migrated to the northern and western regions of the United States in the eight decades between World War I and 1970. This massive true-life tale is anchored in the lives of three real-life figures, Ida Mae Brandon Gladney, George Swanson Starling, and Robert Pershing Foster, who originated from different southern towns and migrated to different urban cities of the North at different times. They left for a personal set of diverse reasons and lived unique lives that diverged drastically from one another. Although they never knew each other and were unaware of their individual roles in one of the largest migrations movements in modern human history, these three characters were connected by a shared determination to seek freedom in a shared vision of the North.
