A collection of Muir's finest nature and environmental writings includes excerpts from all his major works, including Travels in Alaska and My First Summer in the Sierra. Reprint.

"Terrifying... Eloquent... A heart-rending drama of human yearning..."--New York Times In April 1992 a young man from a well-to-do family hitchhiked to Alaska and walked alone into the wilderness north of Mt. McKinley. He had given \$25,000 in savings to charity, abandoned his car and most of his possessions, burned all the cash in his wallet, and invented a new life for himself. Four months later, his decomposed body was found by a moose hunter. How Christopher Johnson McCandless came to die is the unforgettable story of Into the Wild. Immediately after graduating from college in 1991, McCandless had roamed through the West and Southwest on a vision quest like those made by his heroes Jack London and John Muir. In the Mojave Desert he abandoned his car, stripped it of its license plates, and burned all of his cash. He would give himself a new name, Alexander Supertramp, and, unencumbered by money and belongings, he would be free to wallow in the raw, unfiltered experiences that nature presented. Craving a blank spot on the map, McCandless simply threw the maps away. Leaving behind his desperate parents and sister, he vanished into the wild. Jon Krakauer constructs a clarifying prism through which he reassembles the disquieting facts of McCandless's short life. Admitting an interest that borders on obsession, he searches for the clues to the dries and desires that propelled McCandless. Digging deeply, he takes an inherently compelling mystery and unravels the larger riddles it holds: the profound pull of the American wilderness on our imagination; the allure of high-risk activities to young men of a certain cast of mind; the complex, charged bond between fathers and sons. When McCandless's innocent mistakes turn out to be irreversible and fatal, he becomes the stuff of tabloid headlines and is dismissed for his naiveté, pretensions, and hubris. He is said to have had a death wish but wanting to die is a very different thing from being compelled to look over the edge. Krakauer brings McCandless's uncompromising pilgrimage out of the shadows, and the peril, adversity, and renunciation sought by this enigmatic young man are illuminated with a rare understanding--and not an ounce of sentimentality. Mesmerizing, heartbreaking, Into the Wild is a tour de force. The power and luminosity of Jon Krakauer's storytelling blaze through every page.

All who have admired John Muir's ruggedly individualistic lifestyle, or who desire a greater appreciation of the history of environmental preservation in America, will be enthralled and enlightened by this Pulitzer Prize-winning biography. Following Muir from his ancestral home in Scotland, through his early years in the harsh Wisconsin wilderness, to his historic pilgrimage to California, Linnie Marsh Wolfe creates a full and rounded portrait of her subject--not only as America's firebrand conservationist and founder of the national park system but as a committed husband, father, and friend. Muir was a multifaceted character, shaped as much by his stern and liberty-loving Scottish heritage as by his love of all things wild and free. His battles against the encroachment of civilization were actually born of his love for it, for he was one of the few to realize that the destruction of the wilderness would diminish man himself. This book, originally published in 1945 and based in large part on Wolfe's personal interviews with people who knew and worked with Muir, is one that could never be written again. It is, and will remain, the standard Muir biography.

A collection of some of John Muir's most memorable and inspirational words reminds us of a shared responsibility and inescapable bond--that all inhabitants of this planet "travel the Milky Way together."

Describes how the writer and naturalist set about recording in both word and image the birds of North America, and details the legacy his work has left behind.

Exploring the teachings about wilderness in sacred writing--both ancient and contemporary--and how people can grow through the shared and individual experiences of being present in nature, a practical guide illuminates the power of finding God in the wilderness experiences and the universality of spiritual connections through nature. Original.

The name of John Muir has come to stand for the protection of wild land and wilderness in both America and Britain. Born in Dunbar in the east of Scotland in 1838, Muir is famed as the father of American conservation, and as the first person to promote the idea of National Parks.

Part of John Muir's appeal to modern readers is that he not only explored the American West and wrote about its beauties but also fought for their preservation. His successes dot the landscape and are evident in all the natural features that bear his name: forests, lakes, trails, and glaciers. Here collected are some of Muir's finest wilderness essays, ranging in subject matter from Alaska to Yellowstone, from Oregon to the High Sierra. This book is part of a series that celebrates the tradition of literary naturalists--writers who embrace the natural world as the setting for some of our most euphoric and serious experiences. These books map the intimate connections between the human and the natural world. Literary naturalists transcend political boundaries, social concerns, and historical milieus; they speak for what Henry Beston called the "other nations" of the planet. Their message acquires more weight and urgency as wild places become increasingly scarce.
