In response to changes in the workforce, scholars are calling for mentoring that is more fluid, flexible,

and responsive to the needs of diverse groups of individuals, whether culturally (Kochan & Pascarelli, 2012; Kochan, Searby, George, & Mitchell Edge, 2015) or intergenerationally (Thorpe, 2012) diverse. With these changes, there are greater demands for intergenerational and intercultural collaboration and mentoring. One response to these changes is to take a more collaborative, interactive, and transformational approach to mentoring. In response, this book provides a model for collaborative mentoring, based on best-practice, grounded in theory and research, and framed by the Dynamic Model of Collaborative Mentorship. Each chapter provides a description of one of the five components of the mentoring model which are grounded in theory and include: agency, values, engagement, patterns, and roles. Individual chapters provide resources, prompts and questions to guide reflection, and suggested readings. This book is authored by four individuals who work, research, and write as a team. The book itself is the product of their mentoring research as well as their mentoring practice in action. It is current and timely, focusing on team processes which are collaborative, dynamic, reflective, and continuously developing and evolving.

Do you ever think you 're the only one making any sense? Or tried to reason with your partner with disastrous results? Do long, rambling answers drive you crazy? Or does your colleague 's abrasive manner rub you the wrong way? You are not alone. After a disastrous meeting with a highly successful entrepreneur, who was genuinely convinced he was 'surrounded by idiots', communication expert and bestselling author, Thomas Erikson dedicated himself to understanding how people function and why we often struggle to connect with certain types of people. Surrounded by Idiots is an international phenomenon, selling over 1.5 million copies worldwide. It offers a simple, yet ground-breaking method for assessing the personalities of people we communicate with – in and out of the office – based on four personality types (Red, Blue, Green and Yellow), and provides insights into how we can adjust the way we speak and share information. Erikson will help you understand yourself better, hone communication and social skills, handle conflict with confidence, improve dynamics with your boss and team, and get the best out of the people you deal with and manage. He also shares simple tricks on body language, improving written communication, advice on when to back away or when to push on, and when to speak up or shut up. Packed with 'aha!' and 'oh no!' moments, Surrounded by Idiots will help you understand and communicate with those around you, even people you currently think are beyond all comprehension. And with a bit of luck you can also be confident that the idiot out there isn 't you!

Project implementation aligned with strategic advancement is a challenging endeavor, particularly in an environment of increasing complexity and productivity issues. Your attention determines the experience you end up with, and the experience determines the outcomes you have reached. Therefore, you must control your attention to control arriving at your desired outcomes. William James, in his book *The Principles of Psychology* (Vol I, 1890), wrote a simple statement, “ My experience is what I agree to attend to. ” The statement is highly relevant even in the 21st century for managing high productivity through “ attention management. ” This third volume provides areas for attention management and focuses on diversity, team building, meaningfulness, and growing to leadership, all of which are essentially required for maximizing and cultivating the real benefits with application of project management approach in business and industry.
