Practical Guide to VIVA and OSCE in Ophthalmology Examinations is an essential study guide presented in a direct, exam-style question-and-answer format. It combines detailed explanations with high quality clinical photographs tailor-made to help readers ace specialist oral examinations (MMed, MRCS, FRCS, FRCOphth, FAMS, FRANZCO). Co-authored by ophthalmology trainees who took the final MMed and FRCOphth (Oral) in 2016 and 2017, this is a book written by trainees, for trainees, with prominent author contribution by Prof Wong Tien Yin. This book provides invaluable guidance to readers in presenting their answers in a logical, succinct and elegant manner. Practical Guide to VIVA and OSCE in Ophthalmology Examinations aims to complement the book titled The Ophthalmology Examinations Review by Prof Tien Yin Wong to guide candidates onto the path of success in examinations. This book illustrates the answering techniques employed during examinations, utilizing clinical photographs accompanied by a full template answer script of various high yield conditions. The style and format has been intentionally designed to simulate examination conditions and to provide candidates with ample practice in preparation for the examination. Most major ophthalmic degrees require trainees to take and pass an oral ophthalmic exam. This book fills a significant void in the market for ophthalmic training, where texts combining clinical photos and actual exam answering techniques are severely lacking. Readers will be able to follow the answering techniques and examples provided within the book so as to better cope with the clinical exams. Professor Diana Woodward, University Director of Research, Napier University, Edinburgh and retiring UKCGE Executive Committee Member 'importantly the book deals with perspectives of all three concerned parties, i.e., the candidate, examiner and supervisor. It is . . . a very useful guide to appreciate and prepare for the different stages of the doctoral examination process.' Higher Education Quarterly What is the viva and how can students prepare for it? What should supervisors consider when selecting PhD examiners? How should examiners assess a doctoral thesis and conduct the viva? The doctoral examination process has been shrouded in mystery and has been a source of anxiety and concern for students, supervisors and examiners alike. But now help is at hand. This book sheds new light on the process, providing constructive ways of understanding the doctoral examination, preparing for it and undertaking it. This book stands alone in the field due to the extensive research undertaken by the authors. Over a four year period, surveys and interviews were undertaken with candidates and academics from a wide range of disciplines throughout Britain.
