Time to revisit some old-school tuning tricks! The Weber 32/36 DGV (DGEV, DGAV, etc) downdraft carb was at one time a very common basic performance mod used by lots of people on lots of different carbureted compact cars and trucks. Electronic fuel injection (EFI) is now the rule and carburetors the exception.

Weber Carburetors Manual DGAV Dual-Downdraft Easy-To-Follow Instructions Explains The Basics Of Carburetion Design Explains The Theory Of Operation Includes Photographs Repair Techniques On IMPE Single Throat Replacement Applications And Troubleshooting How To Select; Install and Tune For Performance

This series of comprehensive manuals gives the home mechanic an in-depth look at specific areas of auto repair.

This book is the distillation of many years experience of working with Weber carburetors. These celebrated carburetors have been fitted to some of the most exciting and memorable cars and have been more widely used by tuners and modifiers, both for road and competition machinery, than any alternative. The mysteries of why and how they work so well and the practicalities of getting the best from them in any application are explained at length. Setting the carburetor to suit a particular engine, fault-finding on an existing installation, and the maintenance and repair of older carburetors are all topics which receive detailed attention. Anyone maintaining or restoring a classic Weber-equipped car, or contemplating a Weber-based conversion, or simply interested in the science of engine performance and tuning, will learn something from these pages.

Restore it right the first time! This information-packed guide provides all the information you need to restore your prized BMW. Contents cover 1600 to 2002 turbo models from the mid-60's to the mid-70's, and include detailed information on restoring bodywork, chassis, engine and trim. Includes production changes, color schemes and history.

This fully-illustrated guide covers general principles and tuning theory, tuning for extra zest, performance exhaust systems, uprating the ignition system, overhauling and fitting a Weber DGAV 32/36 carbureter, and more for getting the most from your engine.

Packed with information on stripping and rebuilding, tuning, jetting, and choke sizes. Application formulae help you calculate exactly the right setup for your car. Covers all Weber DCOE & Dellorto DHLA & DCO/SP carburetors.
