settings. Research influences educational practice, and the outcomes in practice inform further research efforts. The Strategic Education Research Partnership (SERP) is designed to make this vision a reality. It proposes a large-scale, coherent program of research and development that would put the problems of educational practice at its center, and focus on all stages necessary to influence practice. These include theory testing, the development and evaluation of instructional programs, the study of practice in context, and attention to taking innovations to scale. This book explains the features of SERP and the ways in which it would address the major challenges of linking research and practice. It is a call to mobilize the nation's resources and political
