Thus Spoke Zarathustra Quotes by Friedrich Nietzsche

Thus Spoke Zarathustra Thus Spoke Zarathustra was written by Friedrich Nietzsche and published between 1883 and 1885.

<p>The influential German philosopher employs a parodistic Biblical style to convey his philosophy of the future, in which man will have broken with the Christian doctrines of submission and denial of nature to a new way of life based on the affirmation of human life and will.</p>
<p>"Zarathustra" was Nietzsche's masterpiece, the first comprehensive statement of his mature philosophy, and the introduction of his influential and well-known (and misunderstood) ideas including the "overman" or "superman" and the "will to power." It is also the source of Nietzsche's famous (and much misconstrued) statement that "God is dead." This classic was due for an update and overhaul. A considerable part of Nietzsche's genius is his ability to make his language dance, and this is what becomes extraordinarily difficult to translate. Aphorist and punster Thomas Wayne puts the play back into this work.</p>

Thus Spake Zarathustra) is a philosophical novel by German philosopher Friedrich Nietzsche. The book chronicles the fictitious travels and speeches of Zarathustra. Zarathustra's namesake was the Persian founder of Zoroastrianism, usually known in English as Zoroaster. Nietzsche is clearly portraying a "new" or "different" Zarathustra, one who turns traditional morality on its head. He goes on to characterize "what the name of Zarathustra means in my mouth, the mouth of the first immoralist:" The book embodies a number of innovative poetical and rhetorical methods of expression. It serves as a parallel and supplement to the various philosophical ideas present in Nietzsche's body of work. He has, however, said that "among my writings my Zarathustra stands to my mind by itself." Emphasizing its centrality and its status as his magnum opus. Since many of the book's ideas are also present in his other works, Zarathustra is seen to have served as a precursor to his later philosophical thought. With the book, Nietzsche embraced a distinct aesthetic assiduity. He later reformulated many of his ideas, in Beyond Good and Evil and various other writings that he composed thereafter. He continued to emphasize his philosophical concerns; generally, his intention was to show an alternative to repressive moral codes and to avert "nihilism" in all of its varied forms. While Nietzsche injects myriad ideas into the book, a few recurring themes stand out. The overman (Übermensch), a self-mastered individual who has achieved his full power, is an almost omnipresent idea in Thus Spoke Zarathustra. Man as a race is merely a bridge between animals and the overman. Nietzsche also makes a point that the overman is not an end result for a person, but more the journey toward self-mastery. The eternal recurrence, found elsewhere in Nietzsche's writing, is also mentioned. "Eternal recurrence" is the possibility that all events in one's life will happen again and again, infinitely. The embrace of all of life's horrors and pleasures alike shows a deference and acceptance of fate, or Amor Fati. The love and acceptance of one's path in life is a defining characteristic of the overman. Faced with the knowledge that he would repeat every action that he has taken, an overman would be elated as he has no regrets and loves life. Opting to change any decision or event in one's life would indicate the presence of resentment or fear; contradictinctly the overman is characterized by courage and a Dionysian spirit. The will to power is the fundamental component of human nature. Everything we do is an expression of the will to power. The will to power is a psychological analysis of all human action and is accentuated by self-overcoming and self-enhancement. Contrasted with living for procreation, pleasure, or happiness, the will to power is the summary of all man's struggle against his surrounding environment as well as his reason for living in it.

Nietzsche regarded "Thus Spoke Zarathustra" as his most important work, and his story of the wandering Zarathustra has had enormous influence on subsequent culture. Nietzsche uses a mixture of homilies, parables, epigrams and dreams to introduce some of his most striking doctrines, including the Overman, nihilism, and the eternal return of the same. This edition offers a new translation by Adrian Del Caro which restores the original versification of Nietzsche's text and captures its poetic brilliance. Robert Pippin's introduction discusses many of the most important interpretative issues raised by the work, including who is Zarathustra and what kind of 'hero' is he and what is the philosophical significance of the work's literary form? The volume will appeal to all readers interested in one of the most original and inventive works of modern philosophy.

The author uses the ancient Persian religious leader, Zarathustra (or Zoroaster) to voice his own views, including the introduction of the controversial doctrine of the "Übermensch" or "superman."

The first comprehensive interpretation of Nietzsche's Thus Spoke Zarathustra--an important and difficult text and the only book Nietzsche ever wrote with characters, events, setting, and a plot. Laurence Lampert's chapter-by-chapter commentary on Nietzsche's magnum opus clarifies not only Zarathustra's narrative structure but also the development of Nietzsche's thinking as a whole. "An impressive piece of scholarship. Insofar as it solves the riddle of Zarathustra in an unprecedented fashion, this study serves as an invaluable resource for all serious students of Nietzsche's philosophy. Lampert's persuasive and thorough interpretation is bound to spark a revival of interest in Zarathustra and raise the standards of Nietzsche scholarship in general."--Daniel W. Conway, Review of Metaphysics "A book of scholarship, filled with passion and concern for its text."--Tracy B. Strong, Review of Politics "This is the first genuine textual commentary on Zarathustra in English, and therewith a genuine reader's guide. It makes a significant and original contribution to its field."--Werner J. Dannhauser, Cornell University "This is a very valuable and carefully wrought study of a very complex and subtle poetic-philosophical work that provides access to Nietzsche's style of presenting his thought, as well as to his passionately affirmed values. Lampert's commentary and analysis of Zarathustra is so thorough and detailed. . . . that it is the most useful English-language companion to Nietzsche's 'edifying' and intriguing work."--Choice Selected as one of Choice's outstanding academic books for 1988

Presents the author's ideas about the problem of living a fulfilling life in a meaningless world.

Nietzsche's infamous work Thus Spake Zarathustra is filled with a strange sense of religiosity that seems to run counter to the philosopher's usual polemics against religious faith. For some scholars, this book marks little but a mental decline in the great philosopher; for C. G. Jung, Zarathustra was an invaluable demonstration of the unconscious at work, one that illuminated both Nietzsche's psychology and spirituality and that of the modern world in general. The original two-volume edition of Jung's lively seminar on Nietzsche's Zarathustra has been an important source for specialists in depth psychology. This new abridged paperback edition allows interested readers to participate with Jung as he probes the underlying meaning of Nietzsche's great work.

Thus Spoke Zarathustra is a foundational work of Western literature and is widely considered to be Friedrich Nietzsche's masterpiece. It includes the German philosopher's famous discussion of the phrase 'God is dead' as well as his concept of the Superman. Nietzsche delineates his Will to Power theory and devotes pages to critiquing Christian thinking, in particular Christianity's definition of good and evil. This revised edition of the standard English translation of Zarathustra updates some of the more archaic language and restores Nietzsche's original italics.

Thus Spoke Zarathustra: A Book for All and None (German: Also sprach Zarathustra: Ein Buch f\u00fcr Alle und Keinen) is a philosophical novel by German philosopher Friedrich Nietzsche, composed in four parts between 1883 and 1885. Much of the work deals with ideas such as the "eternal recurrence of the same", the parable on the "death of God", and the "prophecy" of the Übermensch.
